LEARNERS AREA — ARENA VISUAL EVIDENCE

Upload with Arena_implementation_and_acceptance_2026-10-01.txt. The latest TXT overrides conflicting older captions/phase rules.

Inspected feature branch: arena/01a0f1a0-learners-area · dd23e0a3e1d31bb1ac3e68ca7ca016b063905621

New code package: 23 files; not applied to the product branch in this reference stage.

VocaType preferred headline: Quicksand 700. Fonts follow the owner font-guidelines document.

Booster reference: navigation mechanisms, accessible UI, semantic icons and public welcome motion.

Keep Next.js real routes, authoritative authentication, ownership and Retention source privacy.

Images below are labelled REFERENCE / OWNER TARGET / HISTORICAL QA / LIMIT.

After these captures, the original 31-page reference PDF is appended intact.

The newly named Desktop/remainings.zip is absent. Its missing screenshots are NOT represented here.

Paid Booster flows and Pinterest animation playback were not fully accessible.

This PDF proves visible references. It does not certify app speed, security or completed Part 2.

V2 UPDATE: remainings.zip RECEIVED -7NEW OWNER SCREENSHOTS

This version has63pages. New owner appendix: pages56-63. Earlier missing-ZIP statement is superseded.

Exact23-file patch is supplied separately and persisted on the reference-materials branch.

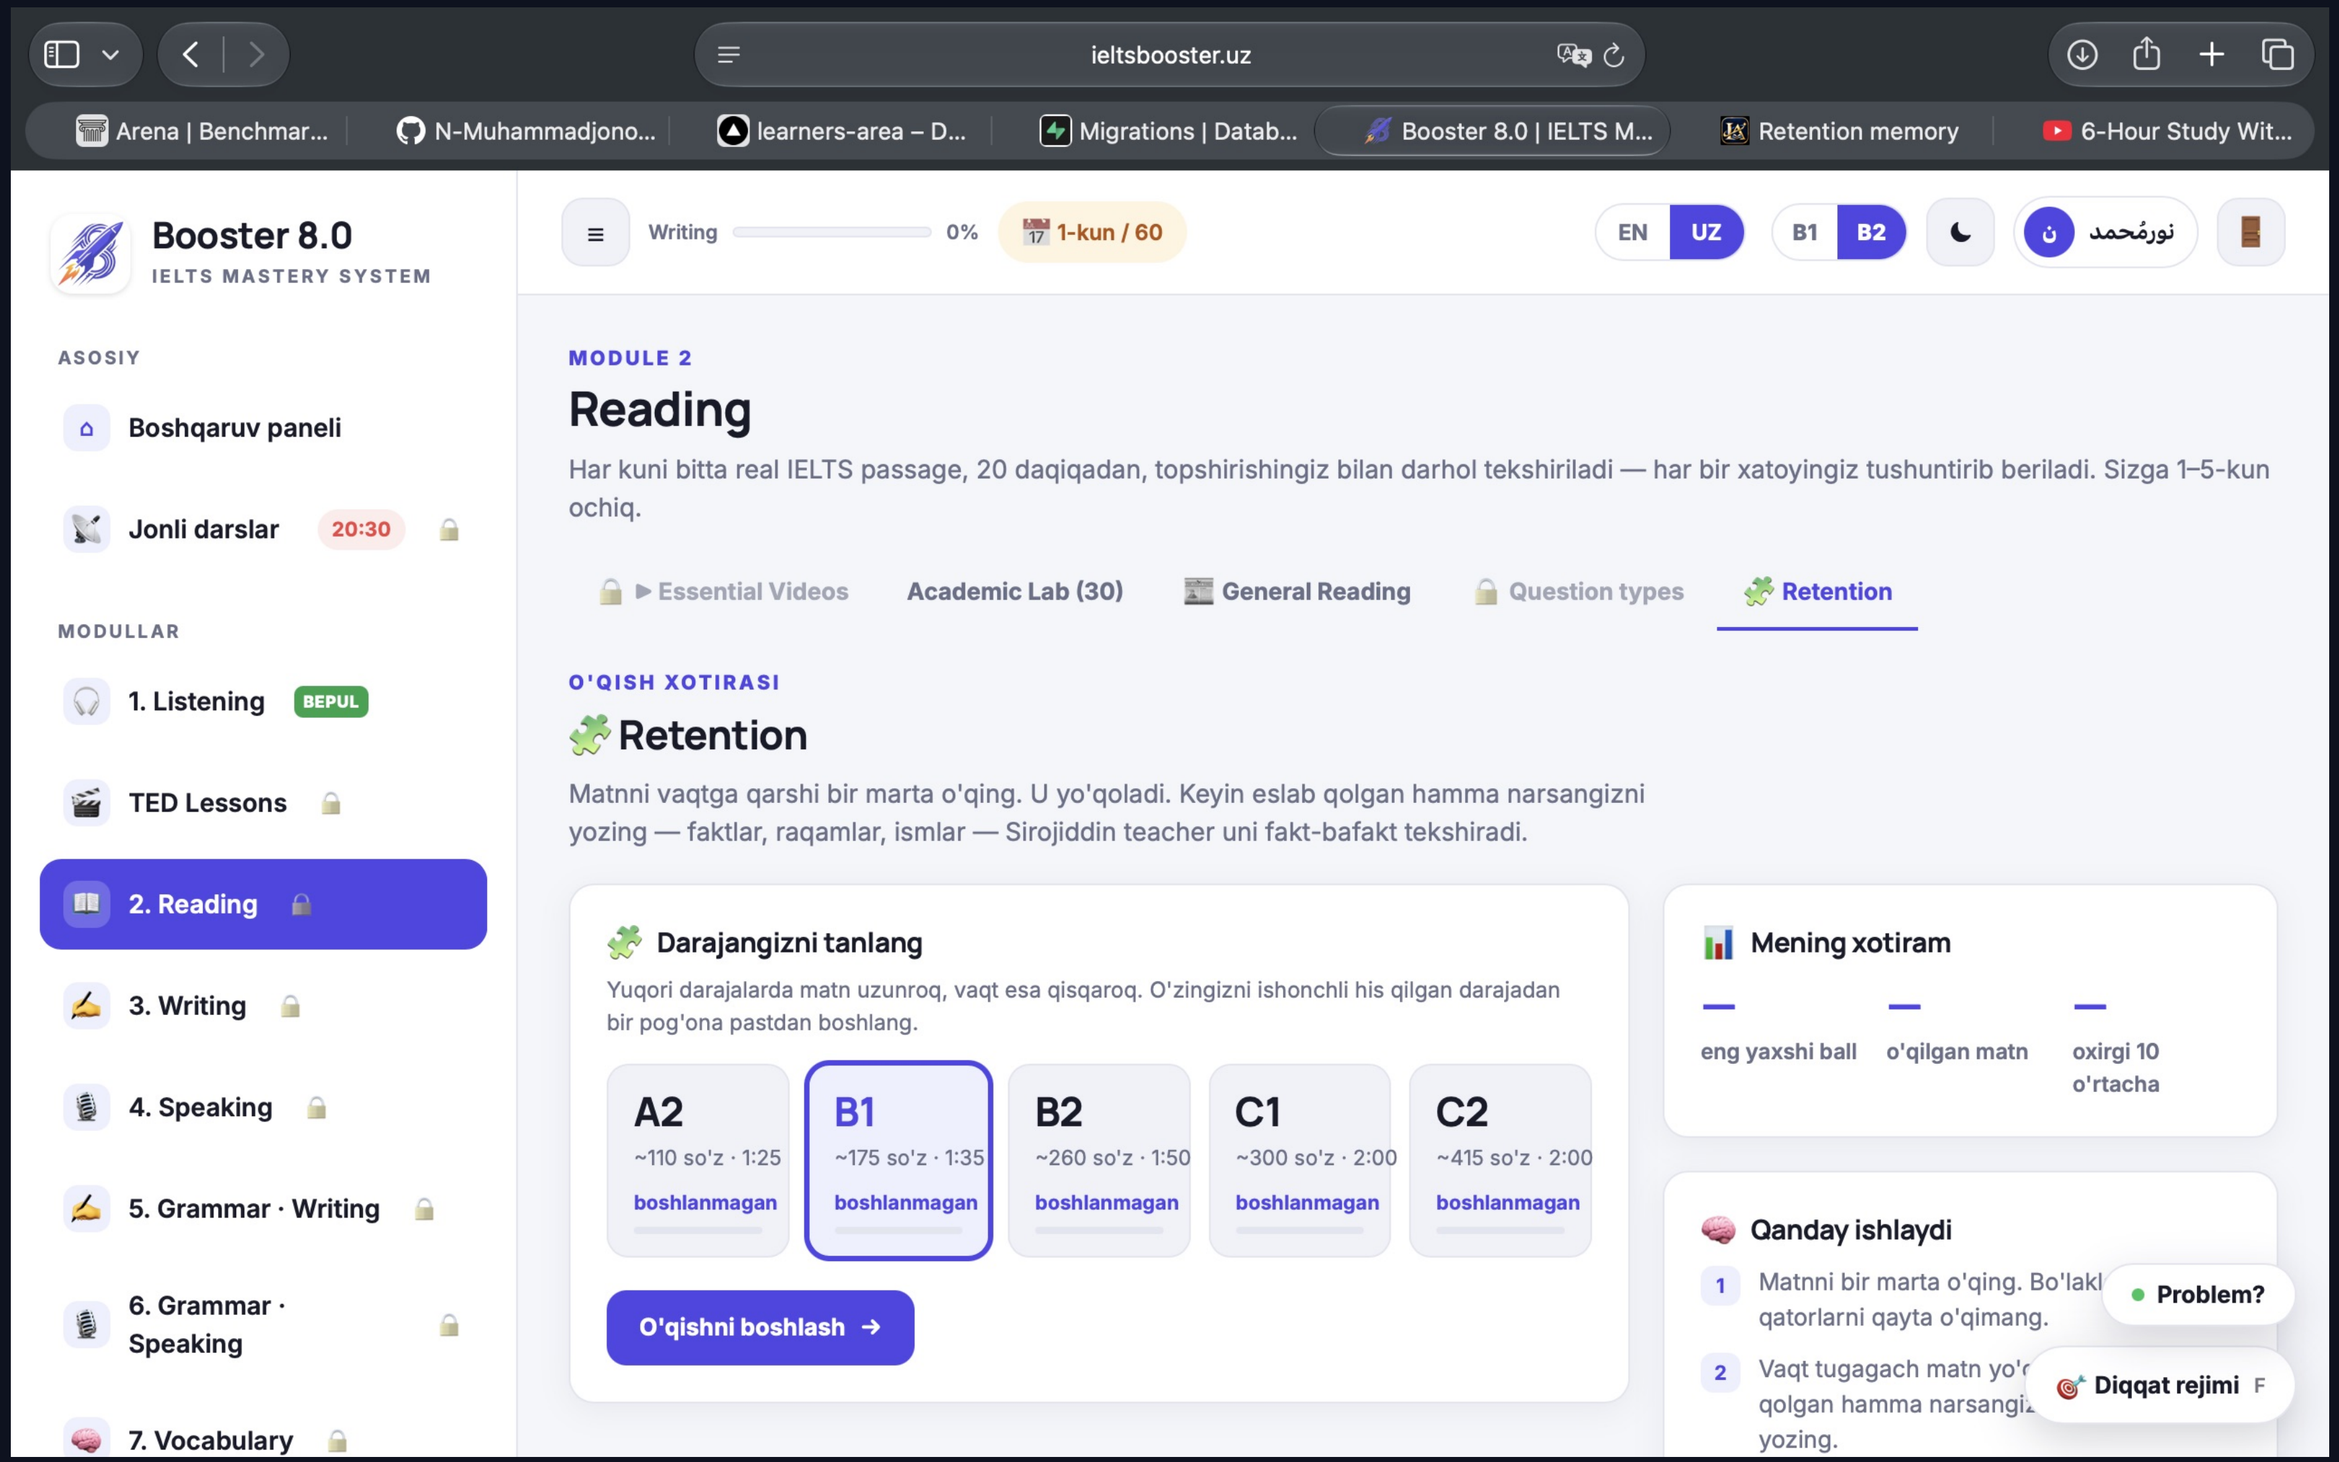

SCREENSHOT INDEX

Use the stable image filename as the reference ID in Arena acceptance reports.

01-booster-retention-hub

REFERENCE · Accessible Booster hub. Level cards and summary observed; active session gated. Keep Learners Area 2:00 + 3:00 rules.

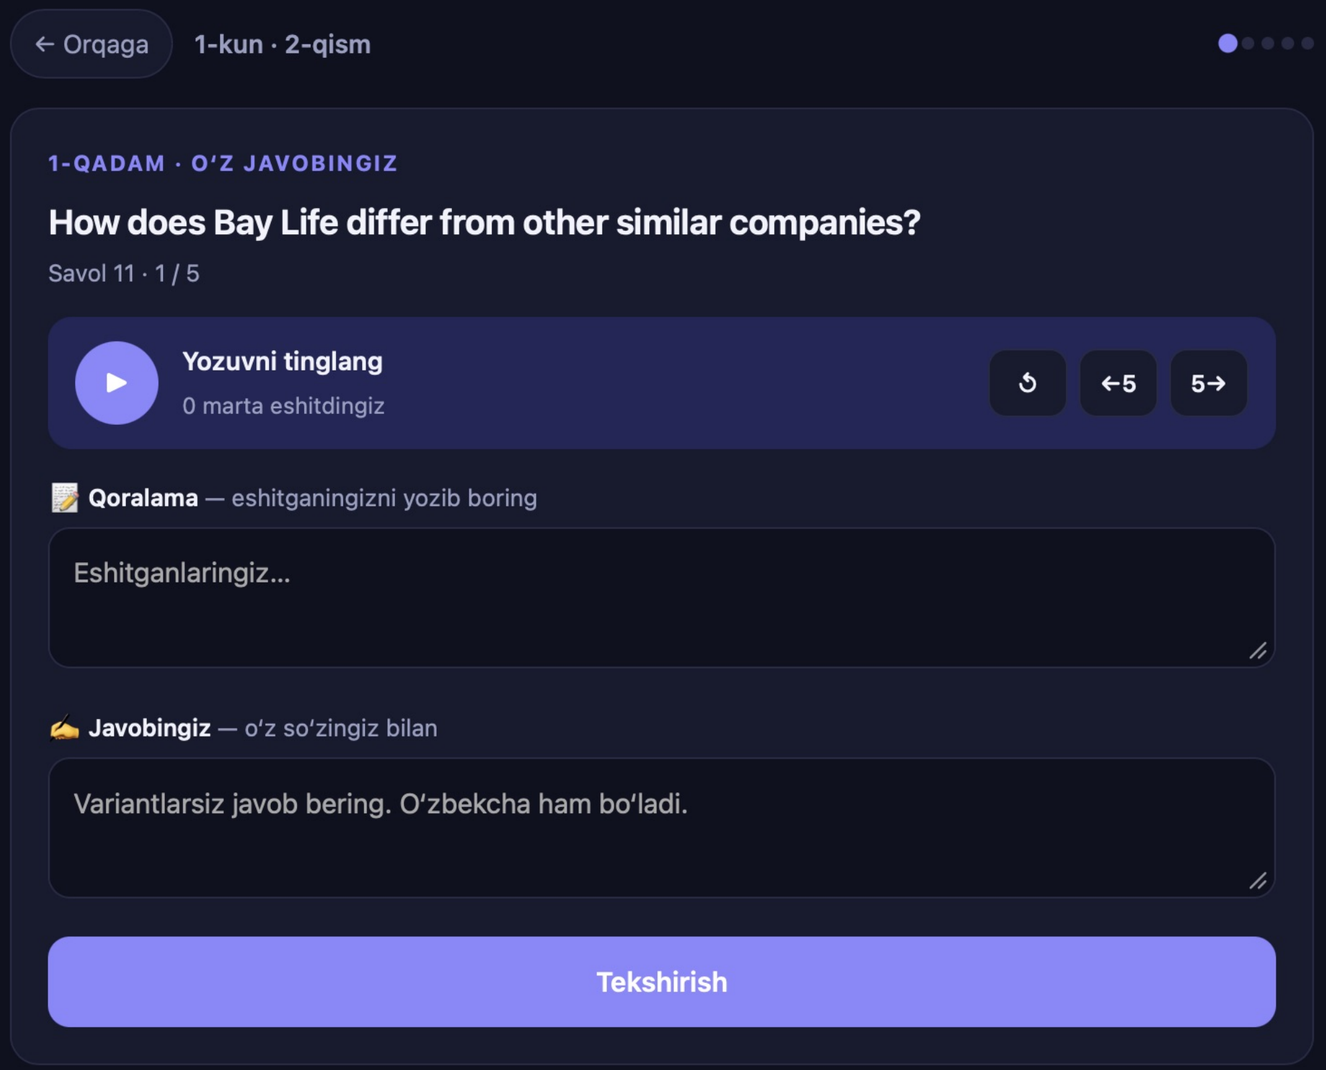

02-booster-listening-mcq-hub

REFERENCE · Listening MCQ entry. Functional direction only; no third-party branding/assets to copy.

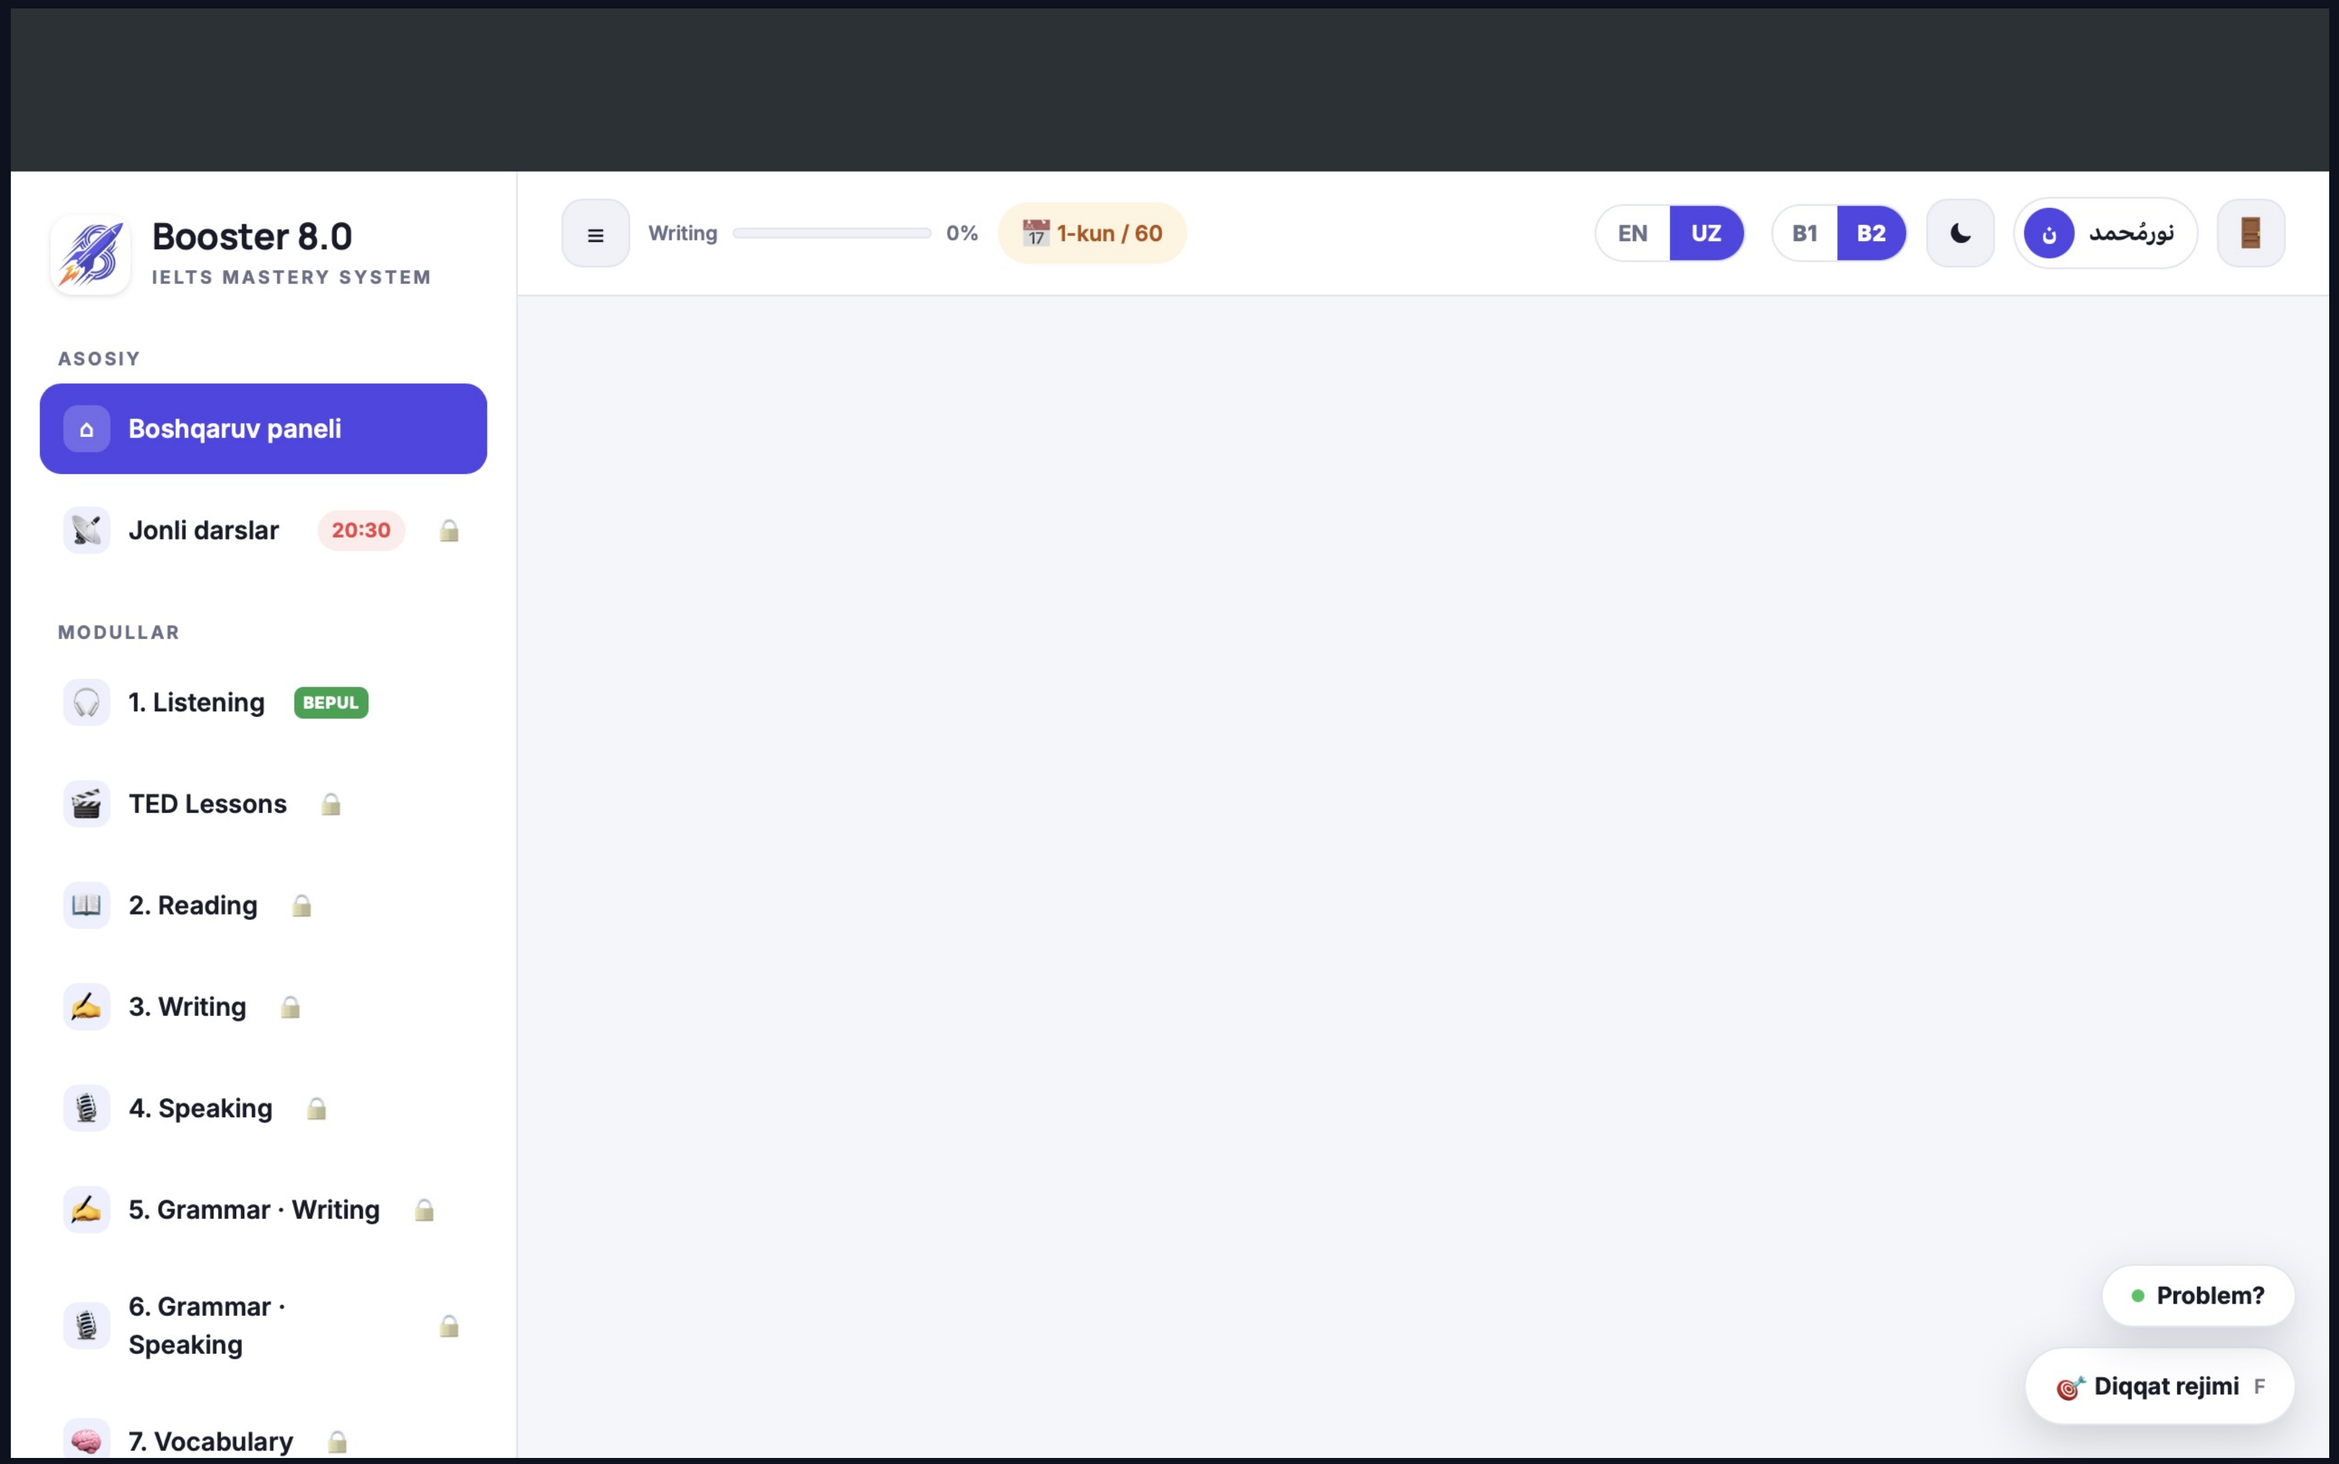

03-booster-mcq-own-answer

REFERENCE · Own-answer-first MCQ step. Audio, notes and check visible; no answer submitted in this inspection.

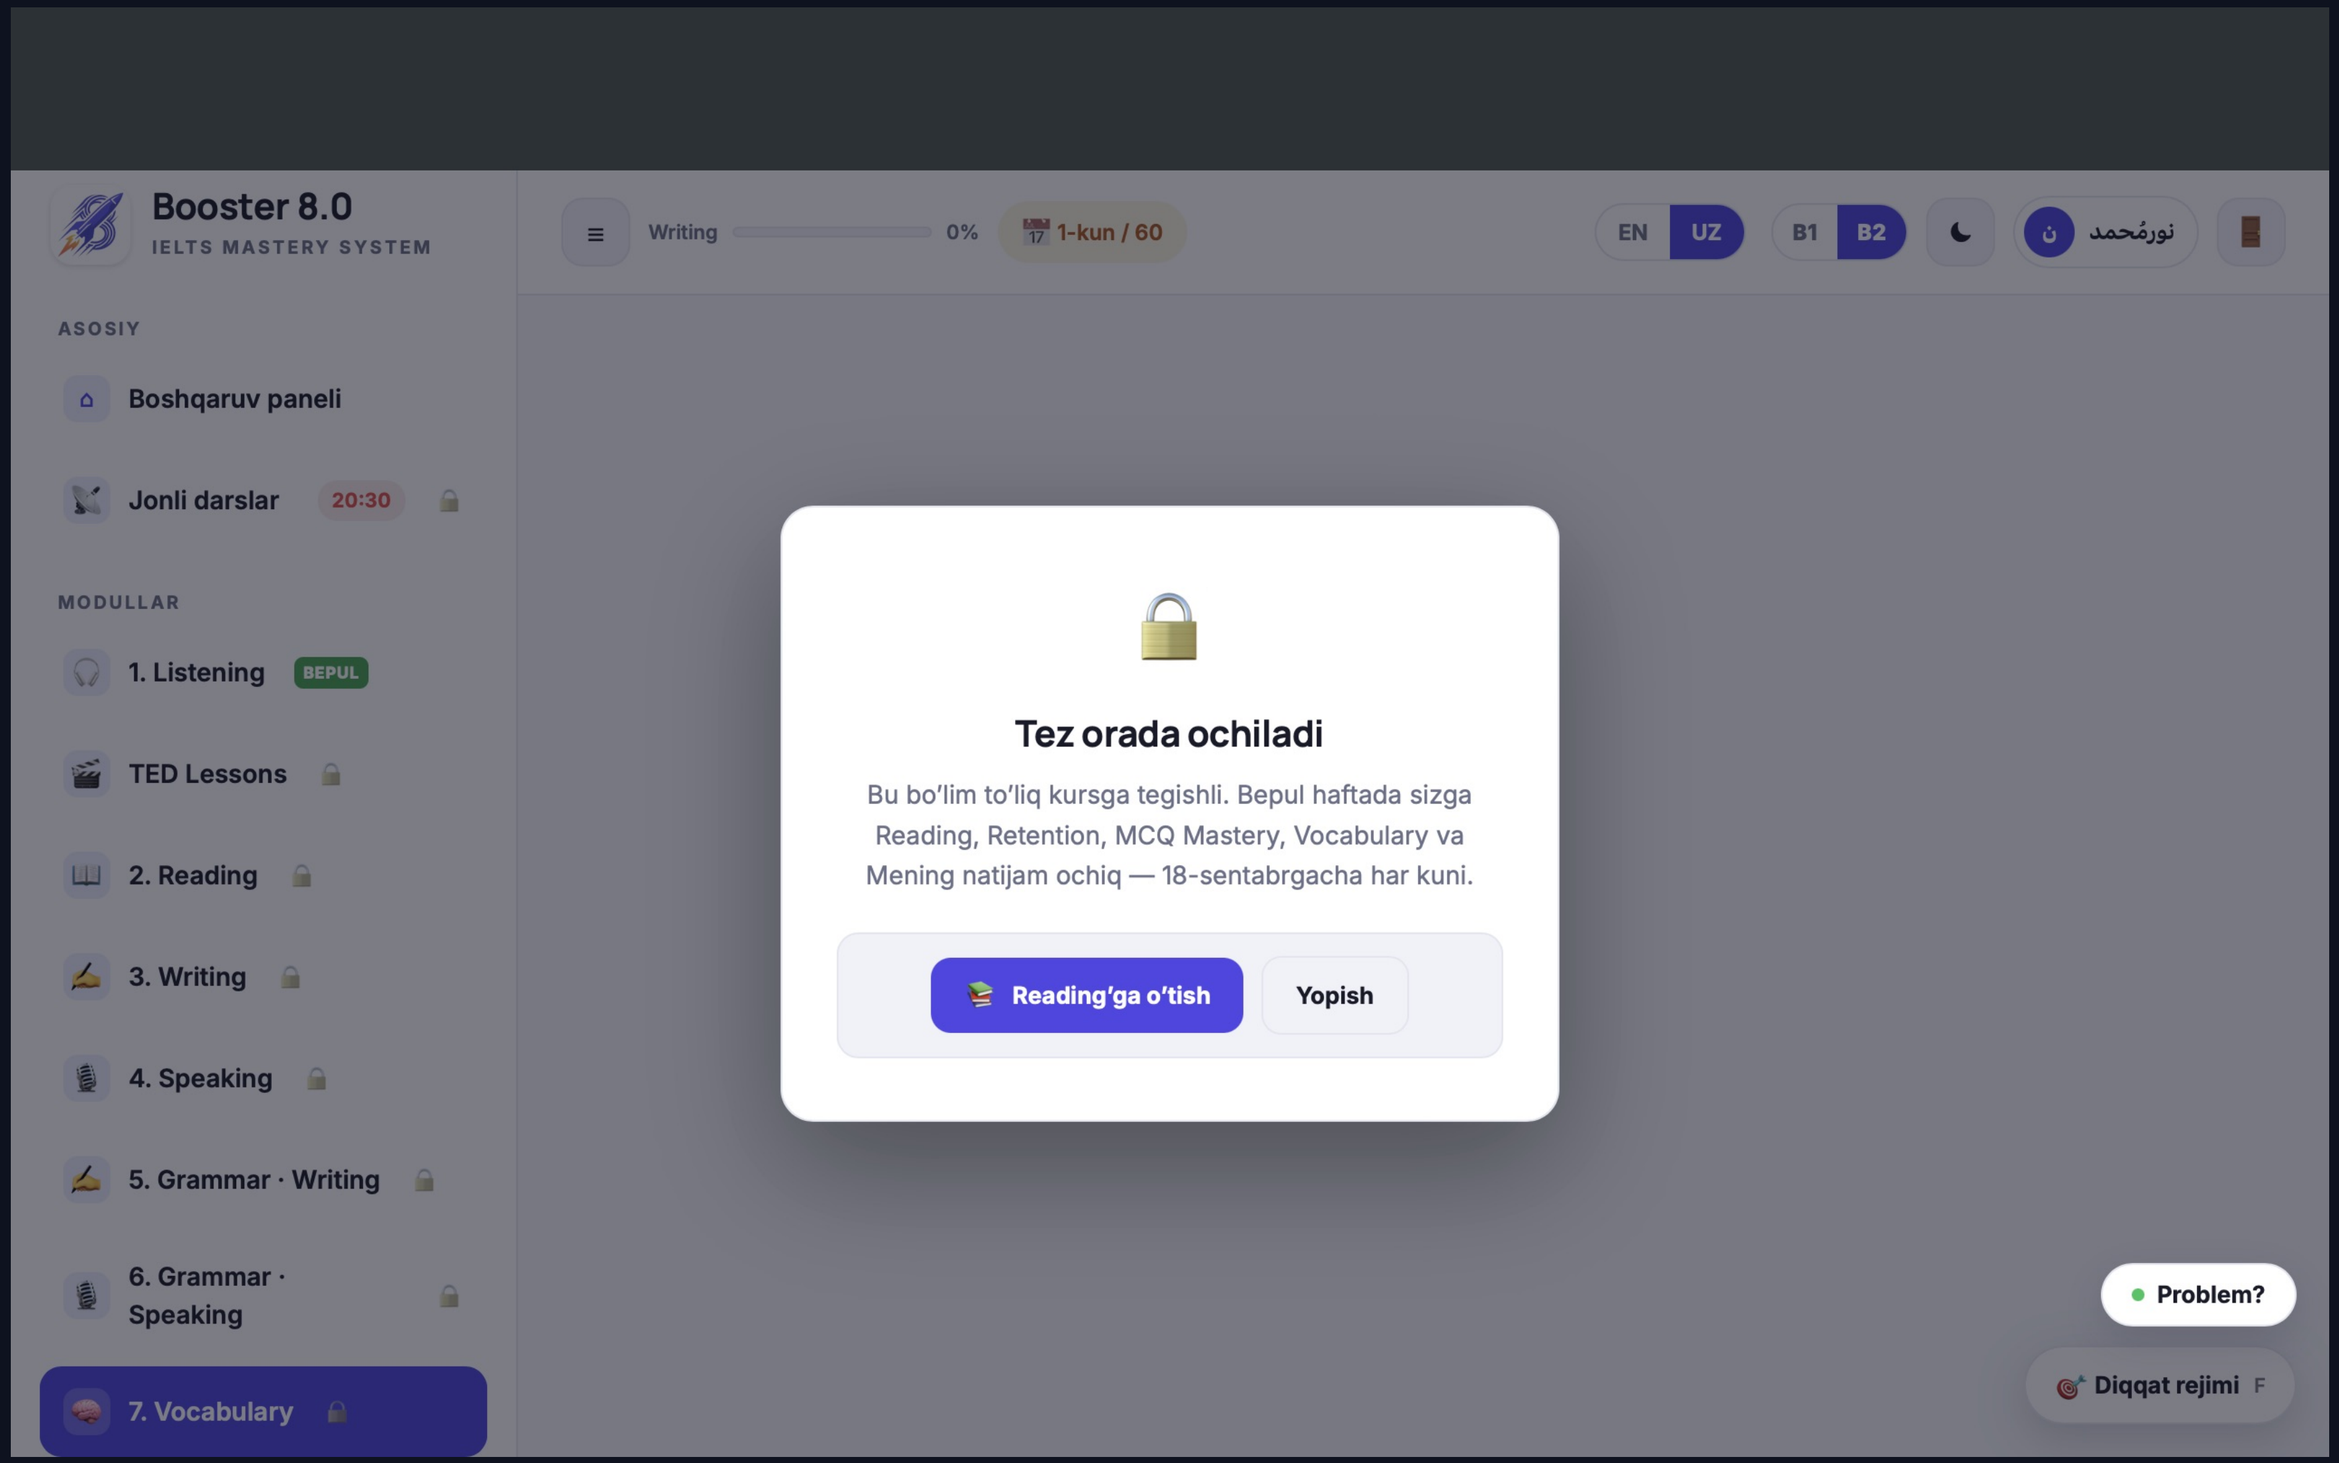

04-booster-dashboard

REFERENCE · Dashboard resident-section navigation. Fast DOM switch is not authenticated data-completion proof.

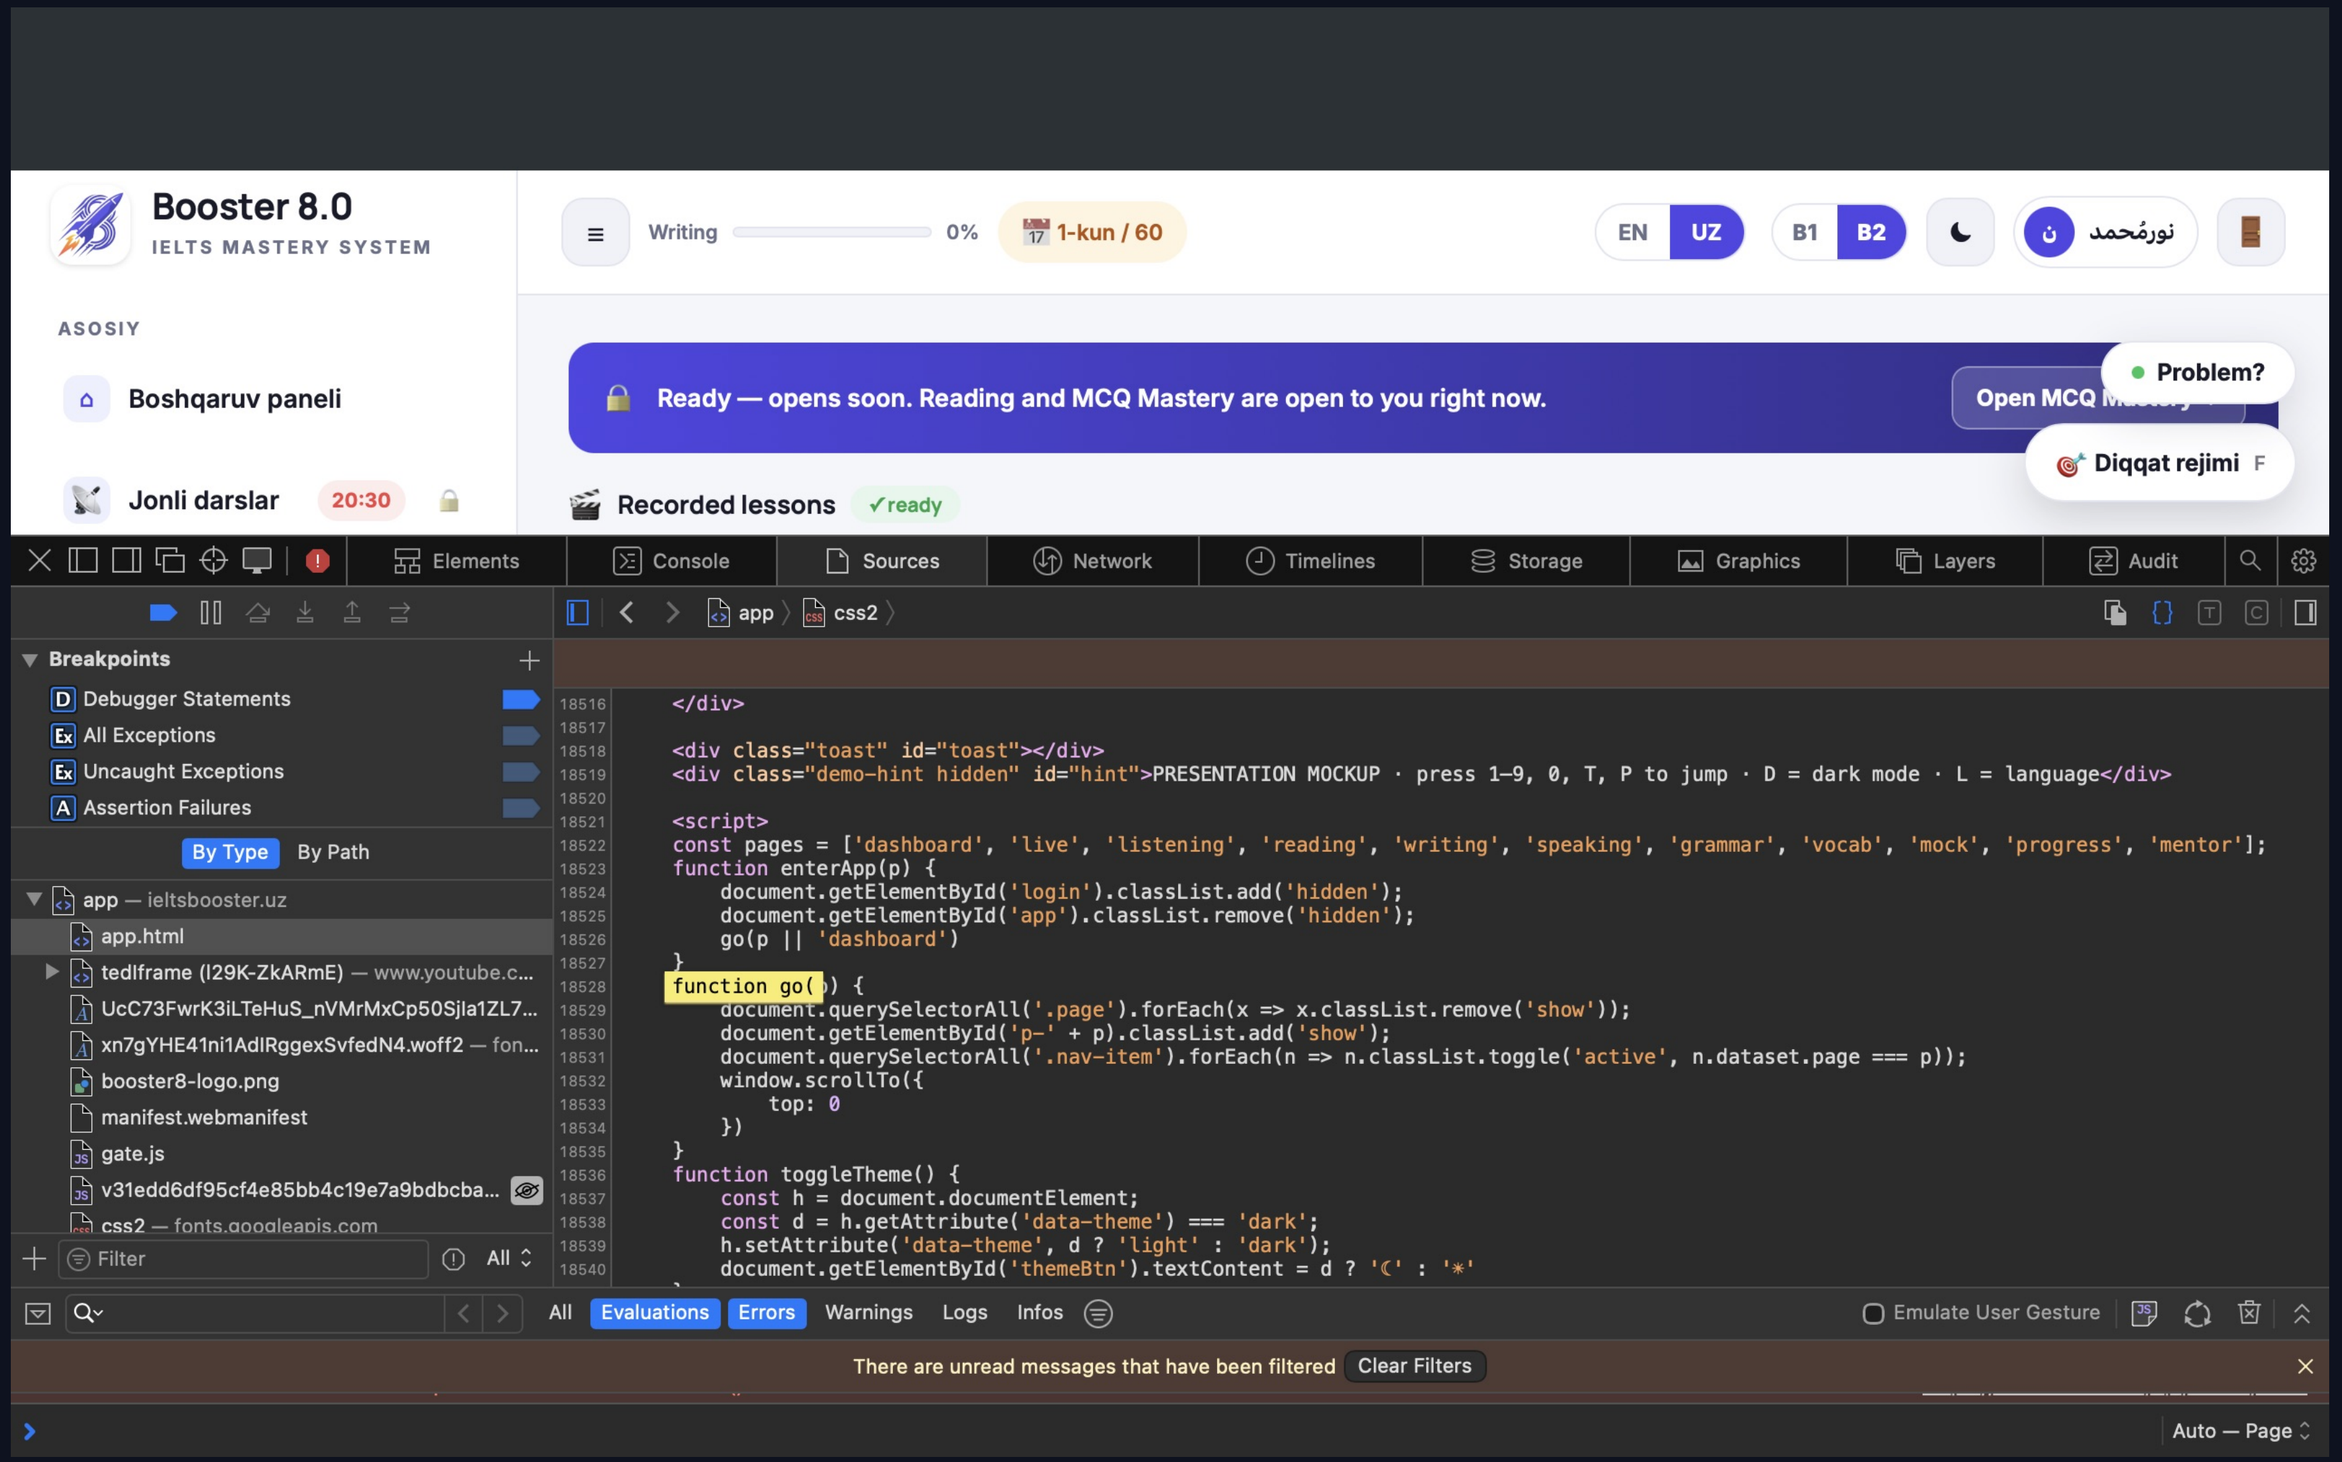

05-booster-vocabulary-access-limit

LIMIT · Vocabulary/typing access was gated. Do not infer unobserved game behaviour from this page.

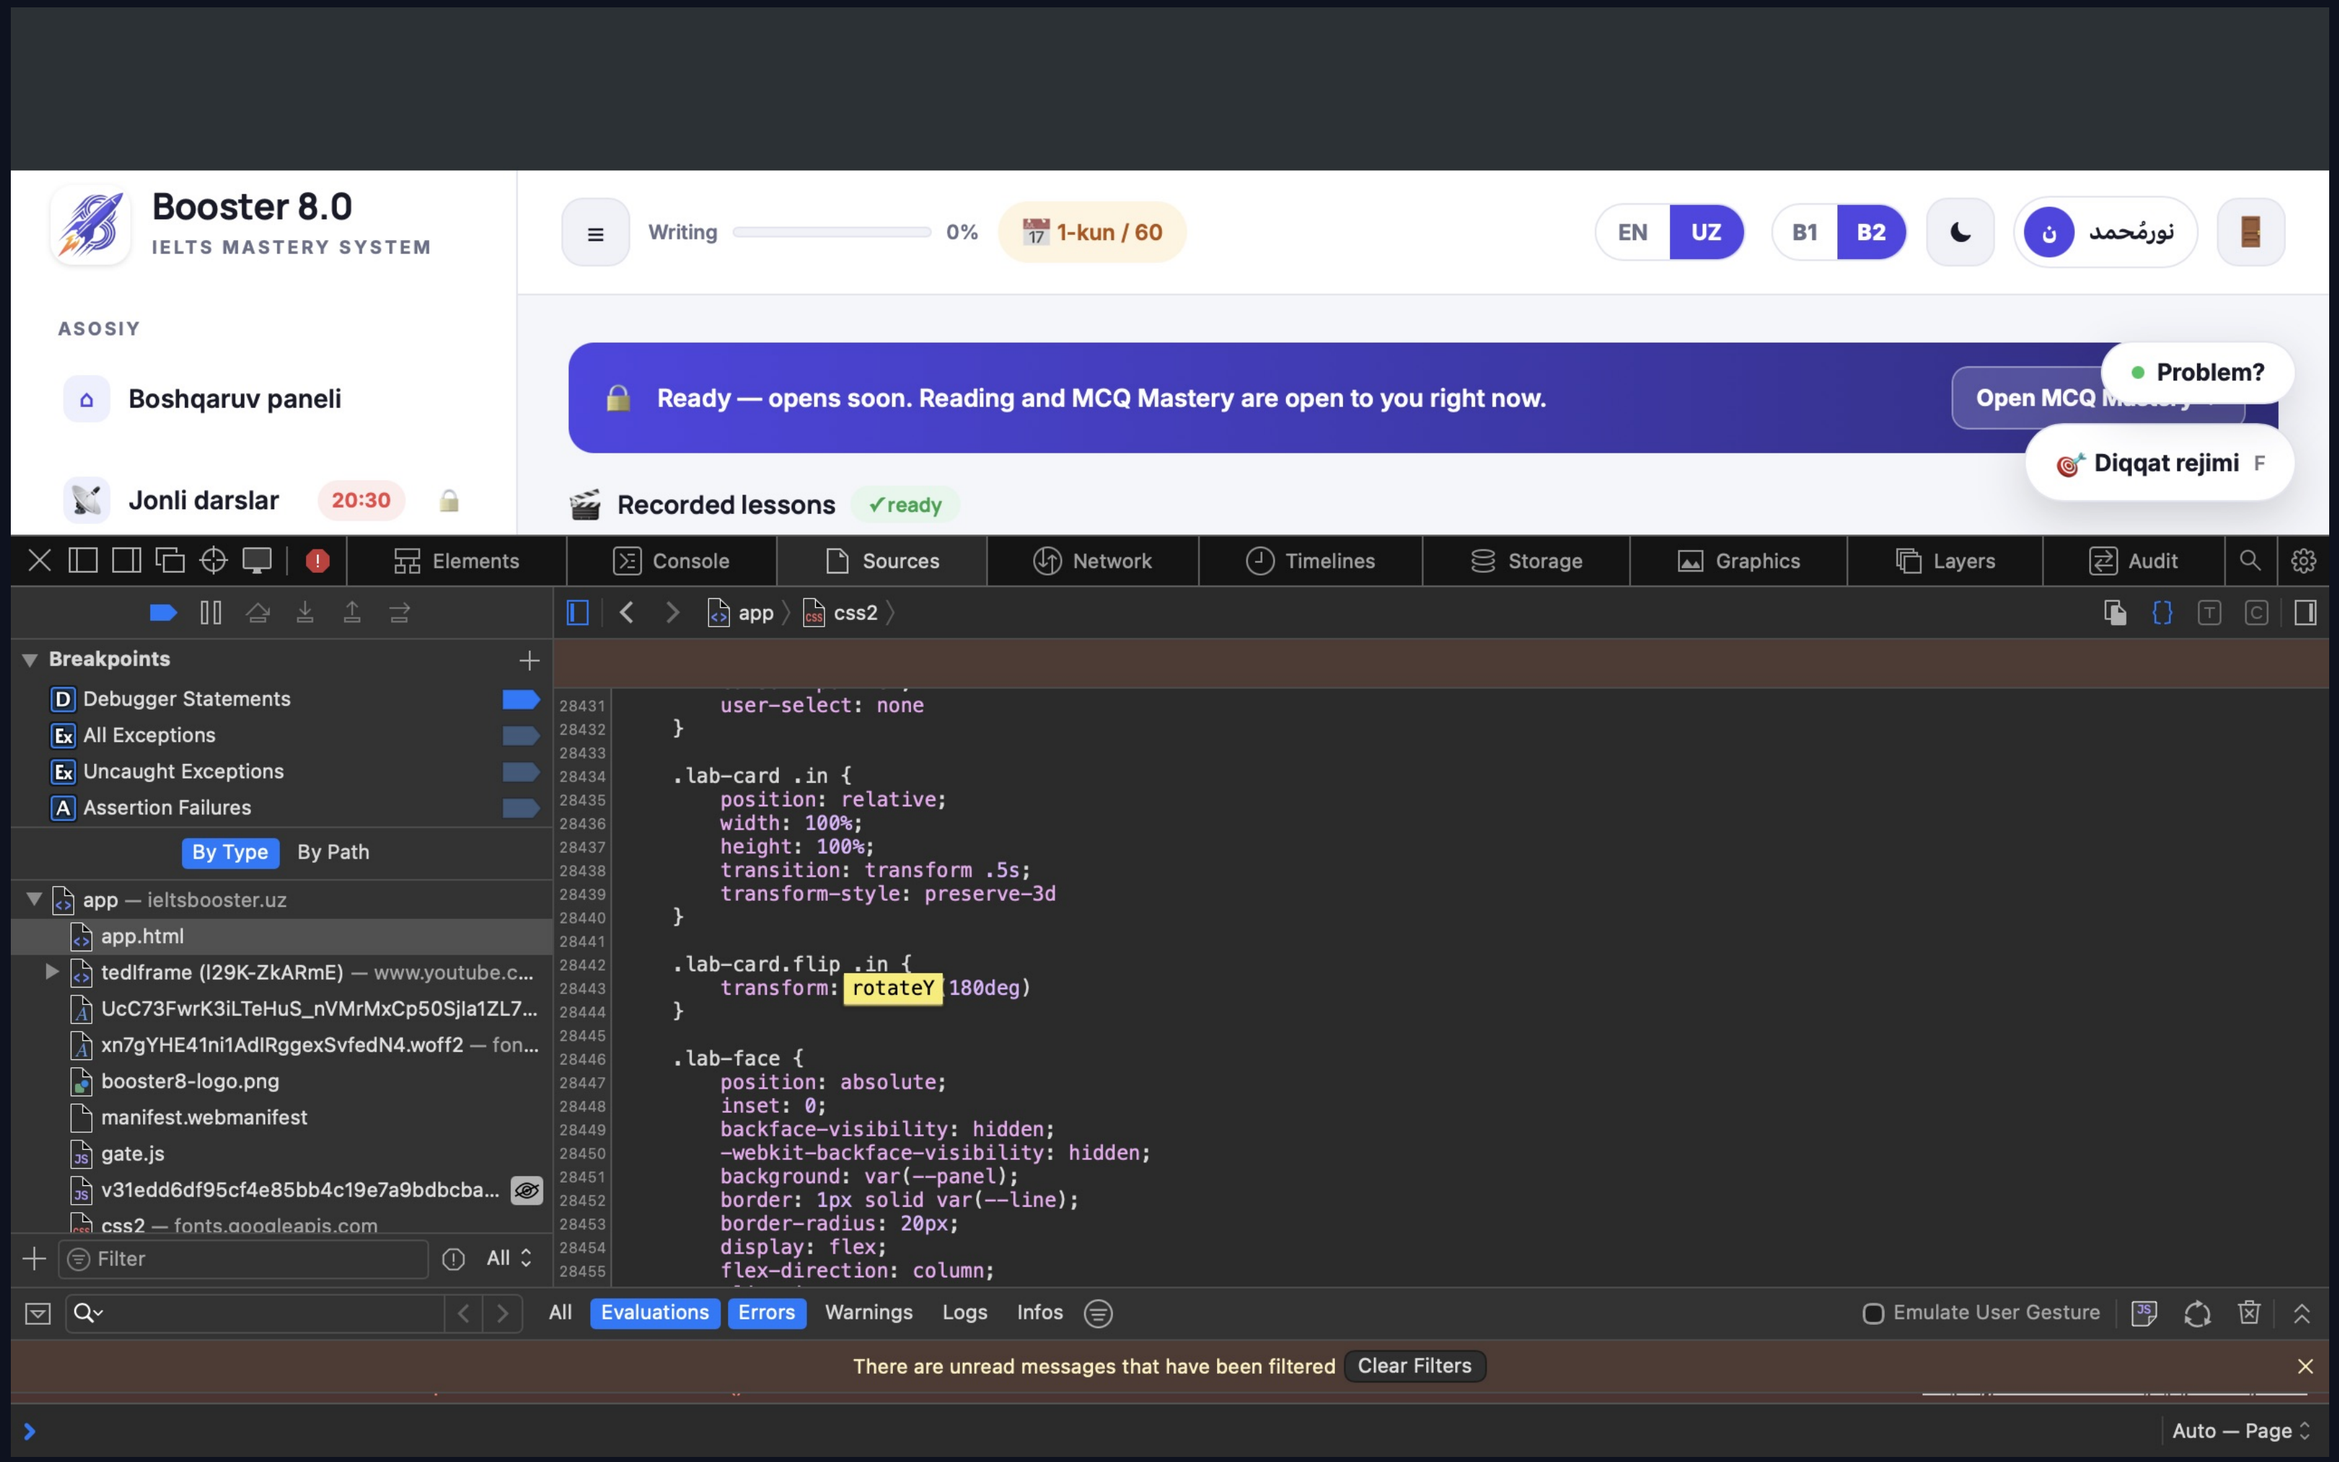

06-booster-navigation-source

SOURCE EVIDENCE · go(p) hides/shows resident pages; real URLs/history/auth must be retained in Learners Area.

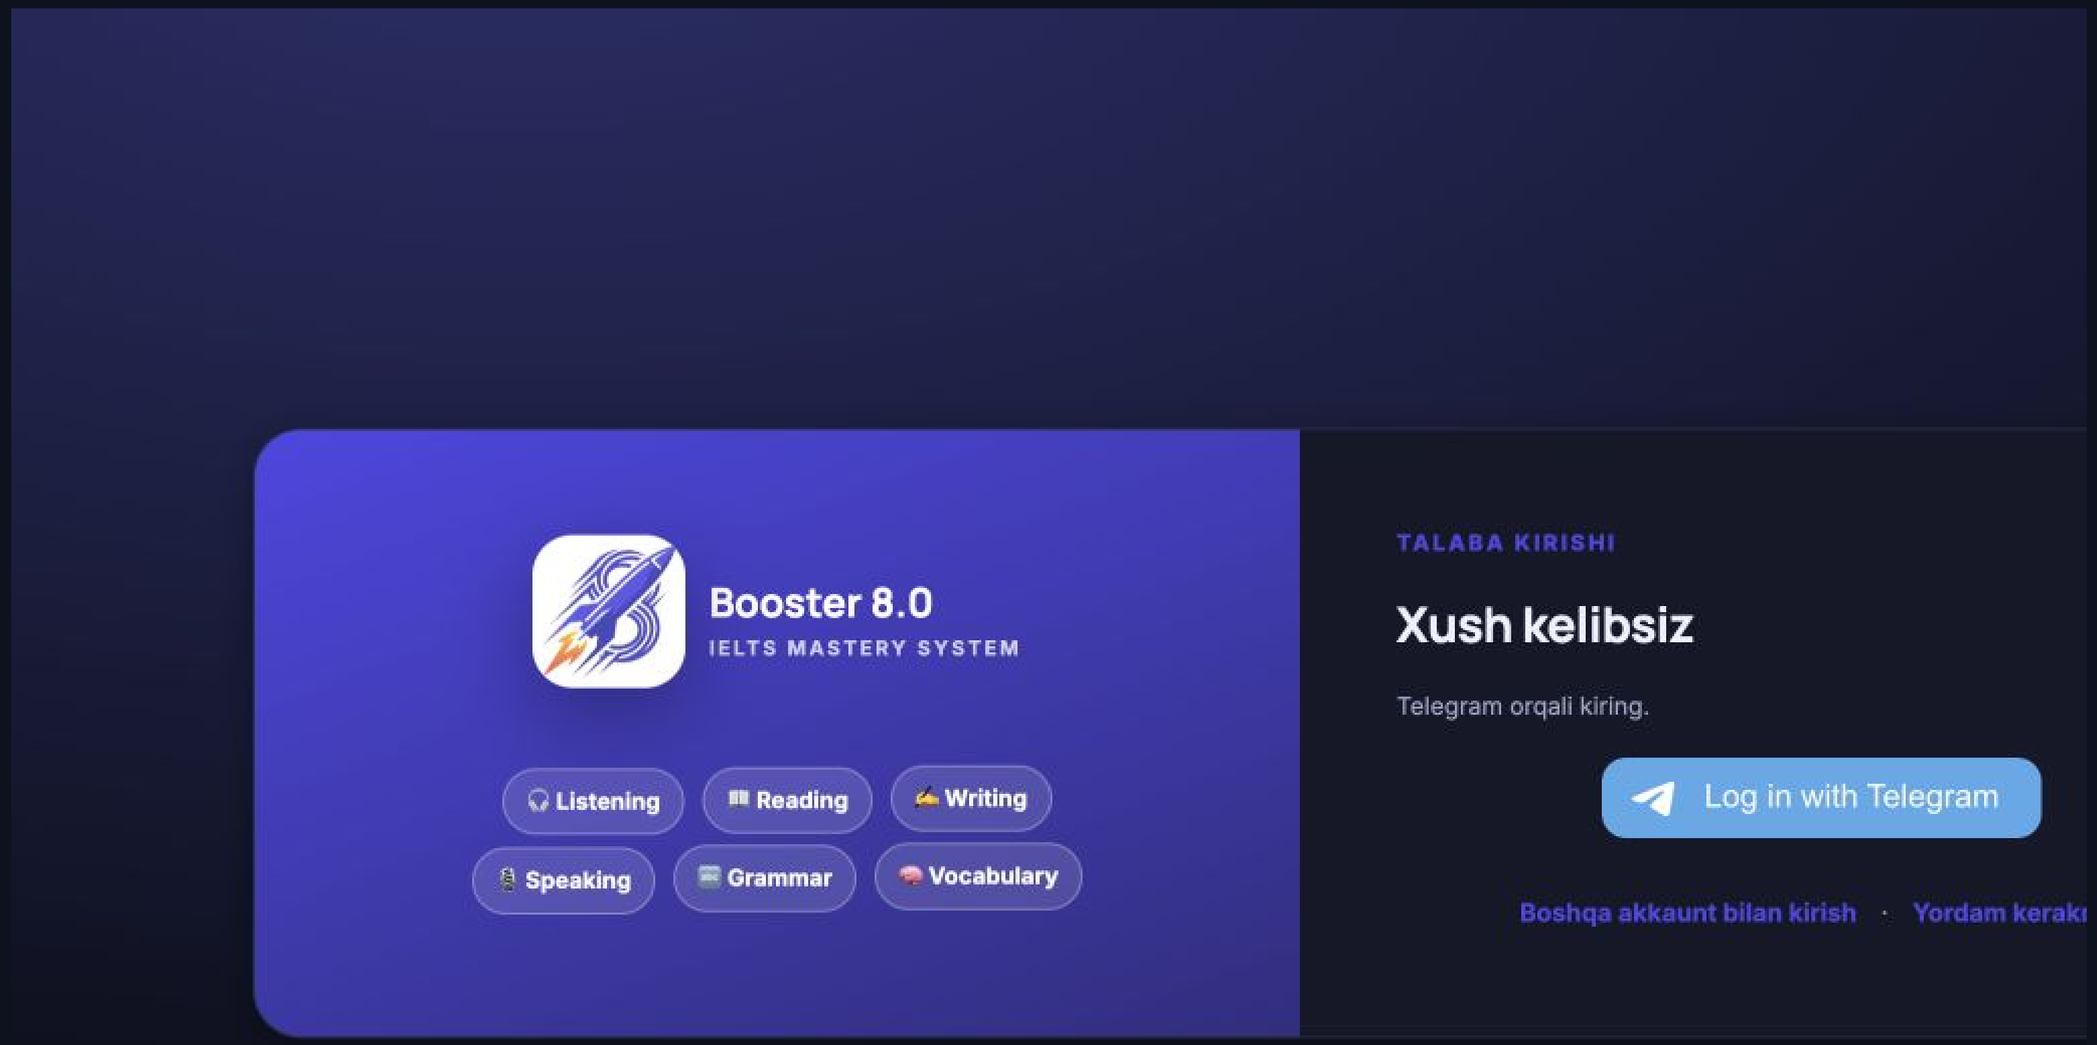

07-booster-flip-source

SOURCE EVIDENCE · perspective/preserve-3d/rotateY. Current Learners Area already has compatible enabled 3D CSS.

08-booster-public-welcome

REFERENCE · Public pre-login motion: hero entrance, floating mark and module chips. Original Learners Area implementation supplied in TXT.

09-vocatype-font-css

FONT EVIDENCE · Quicksand and the other family variables exist in VocaType CSS. Presence alone does not prove every family is used on screen.

Auto — Page

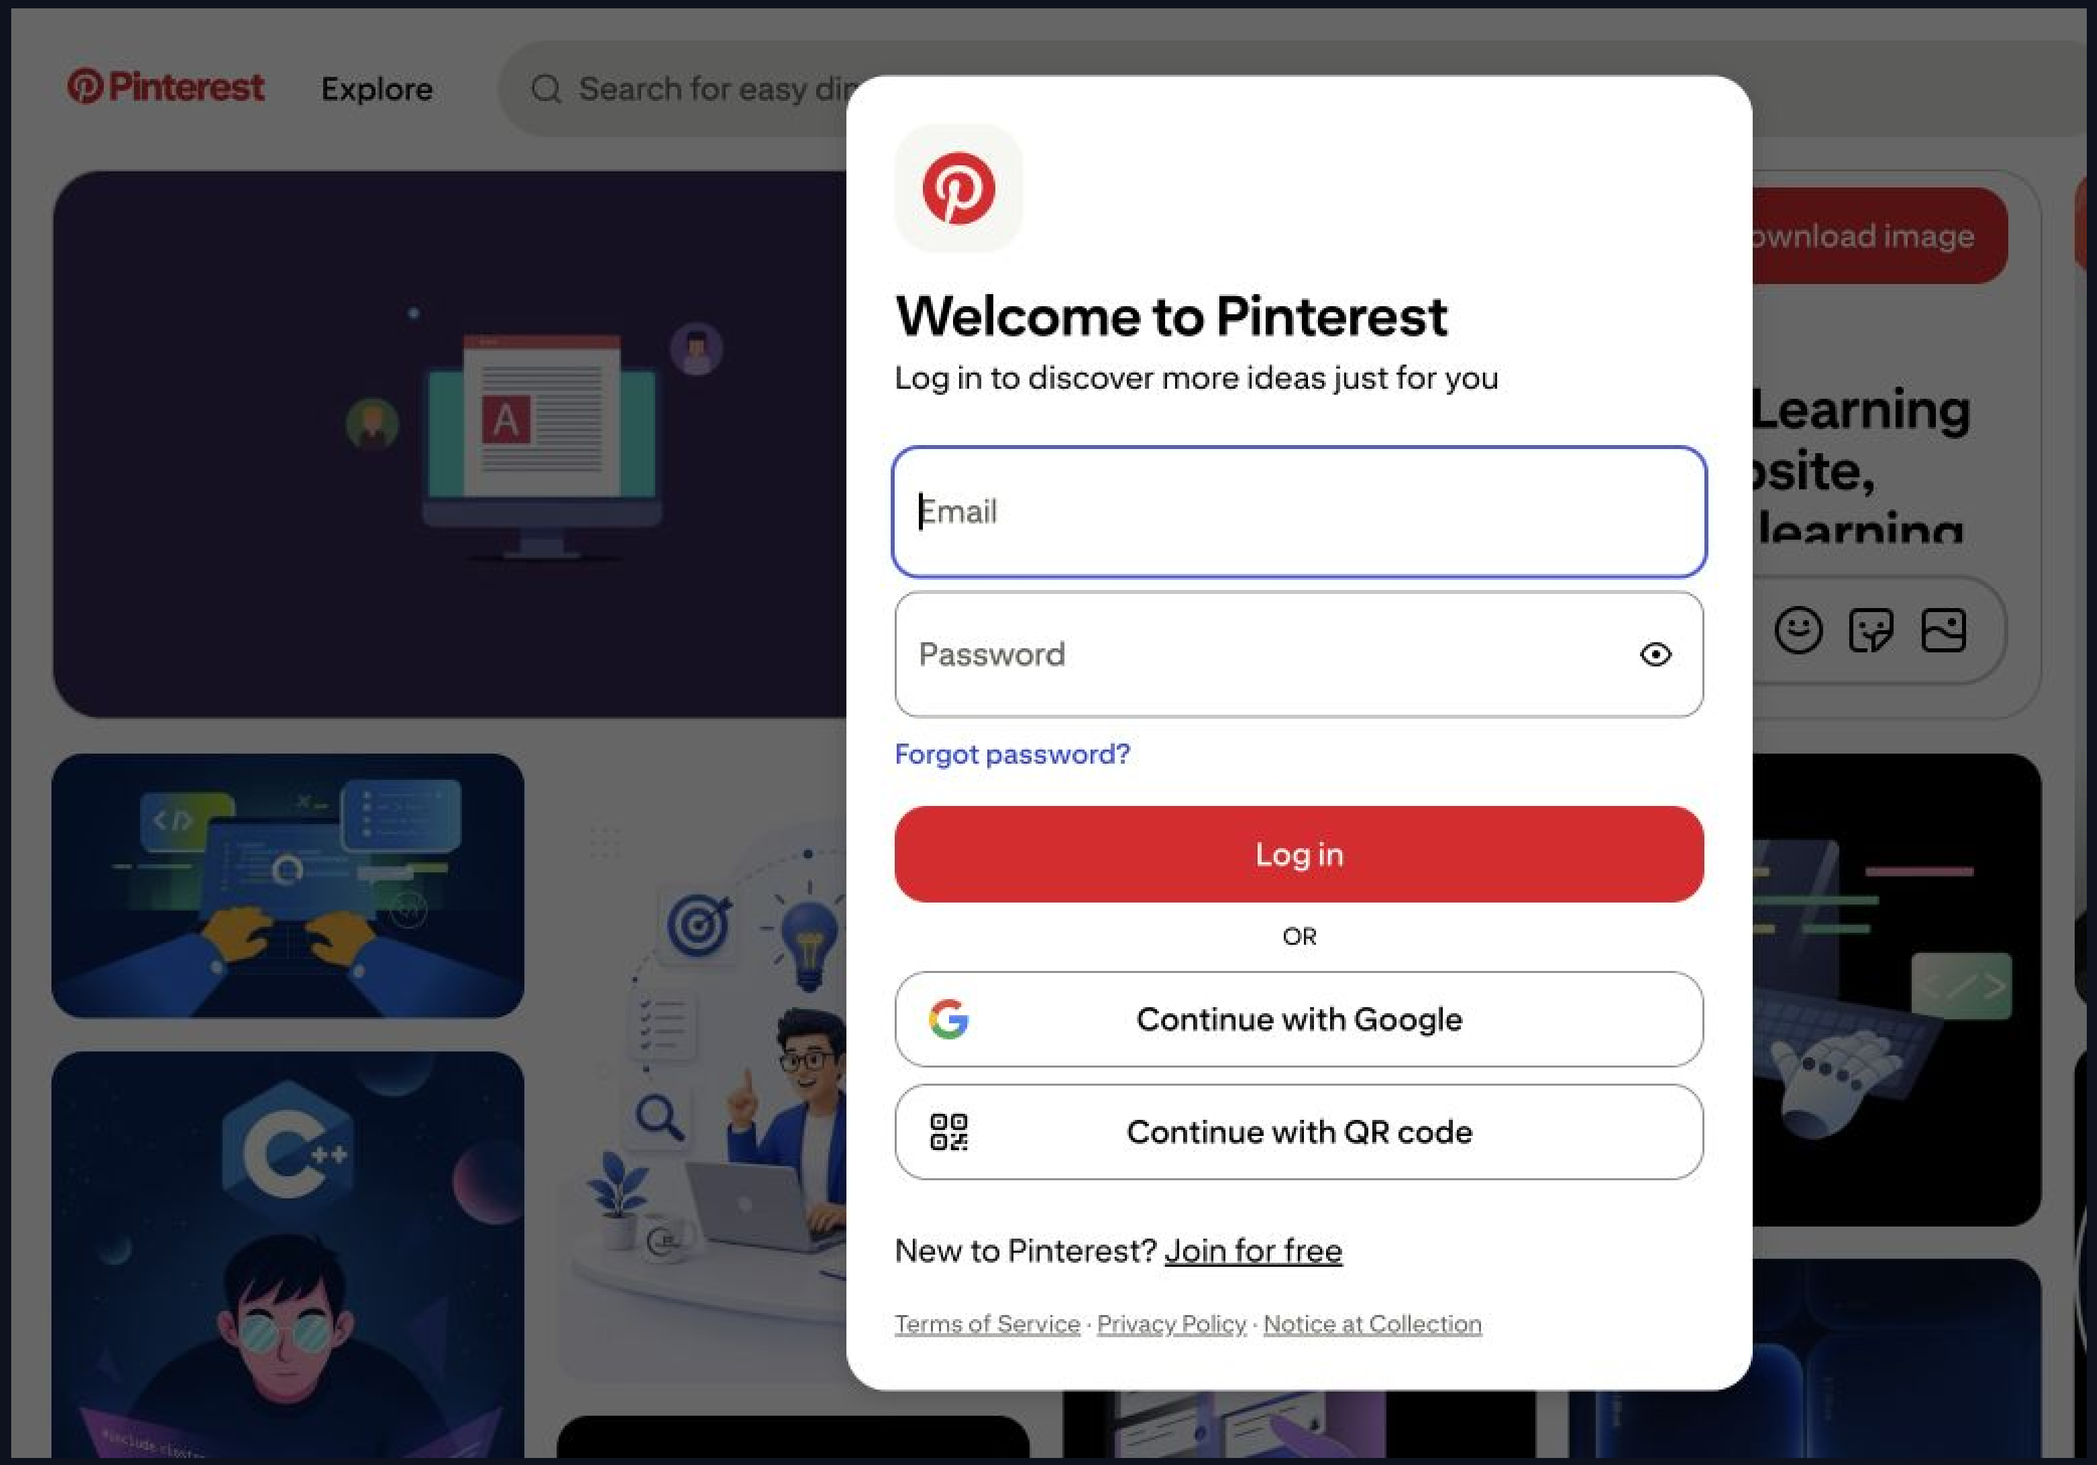

10-owner-preferred-quicksand

OWNER TARGET · Preferred headline. Computed VocaType h1 uses Quicksand at weight 700. Learners Area keeps its own words, palette and brand.

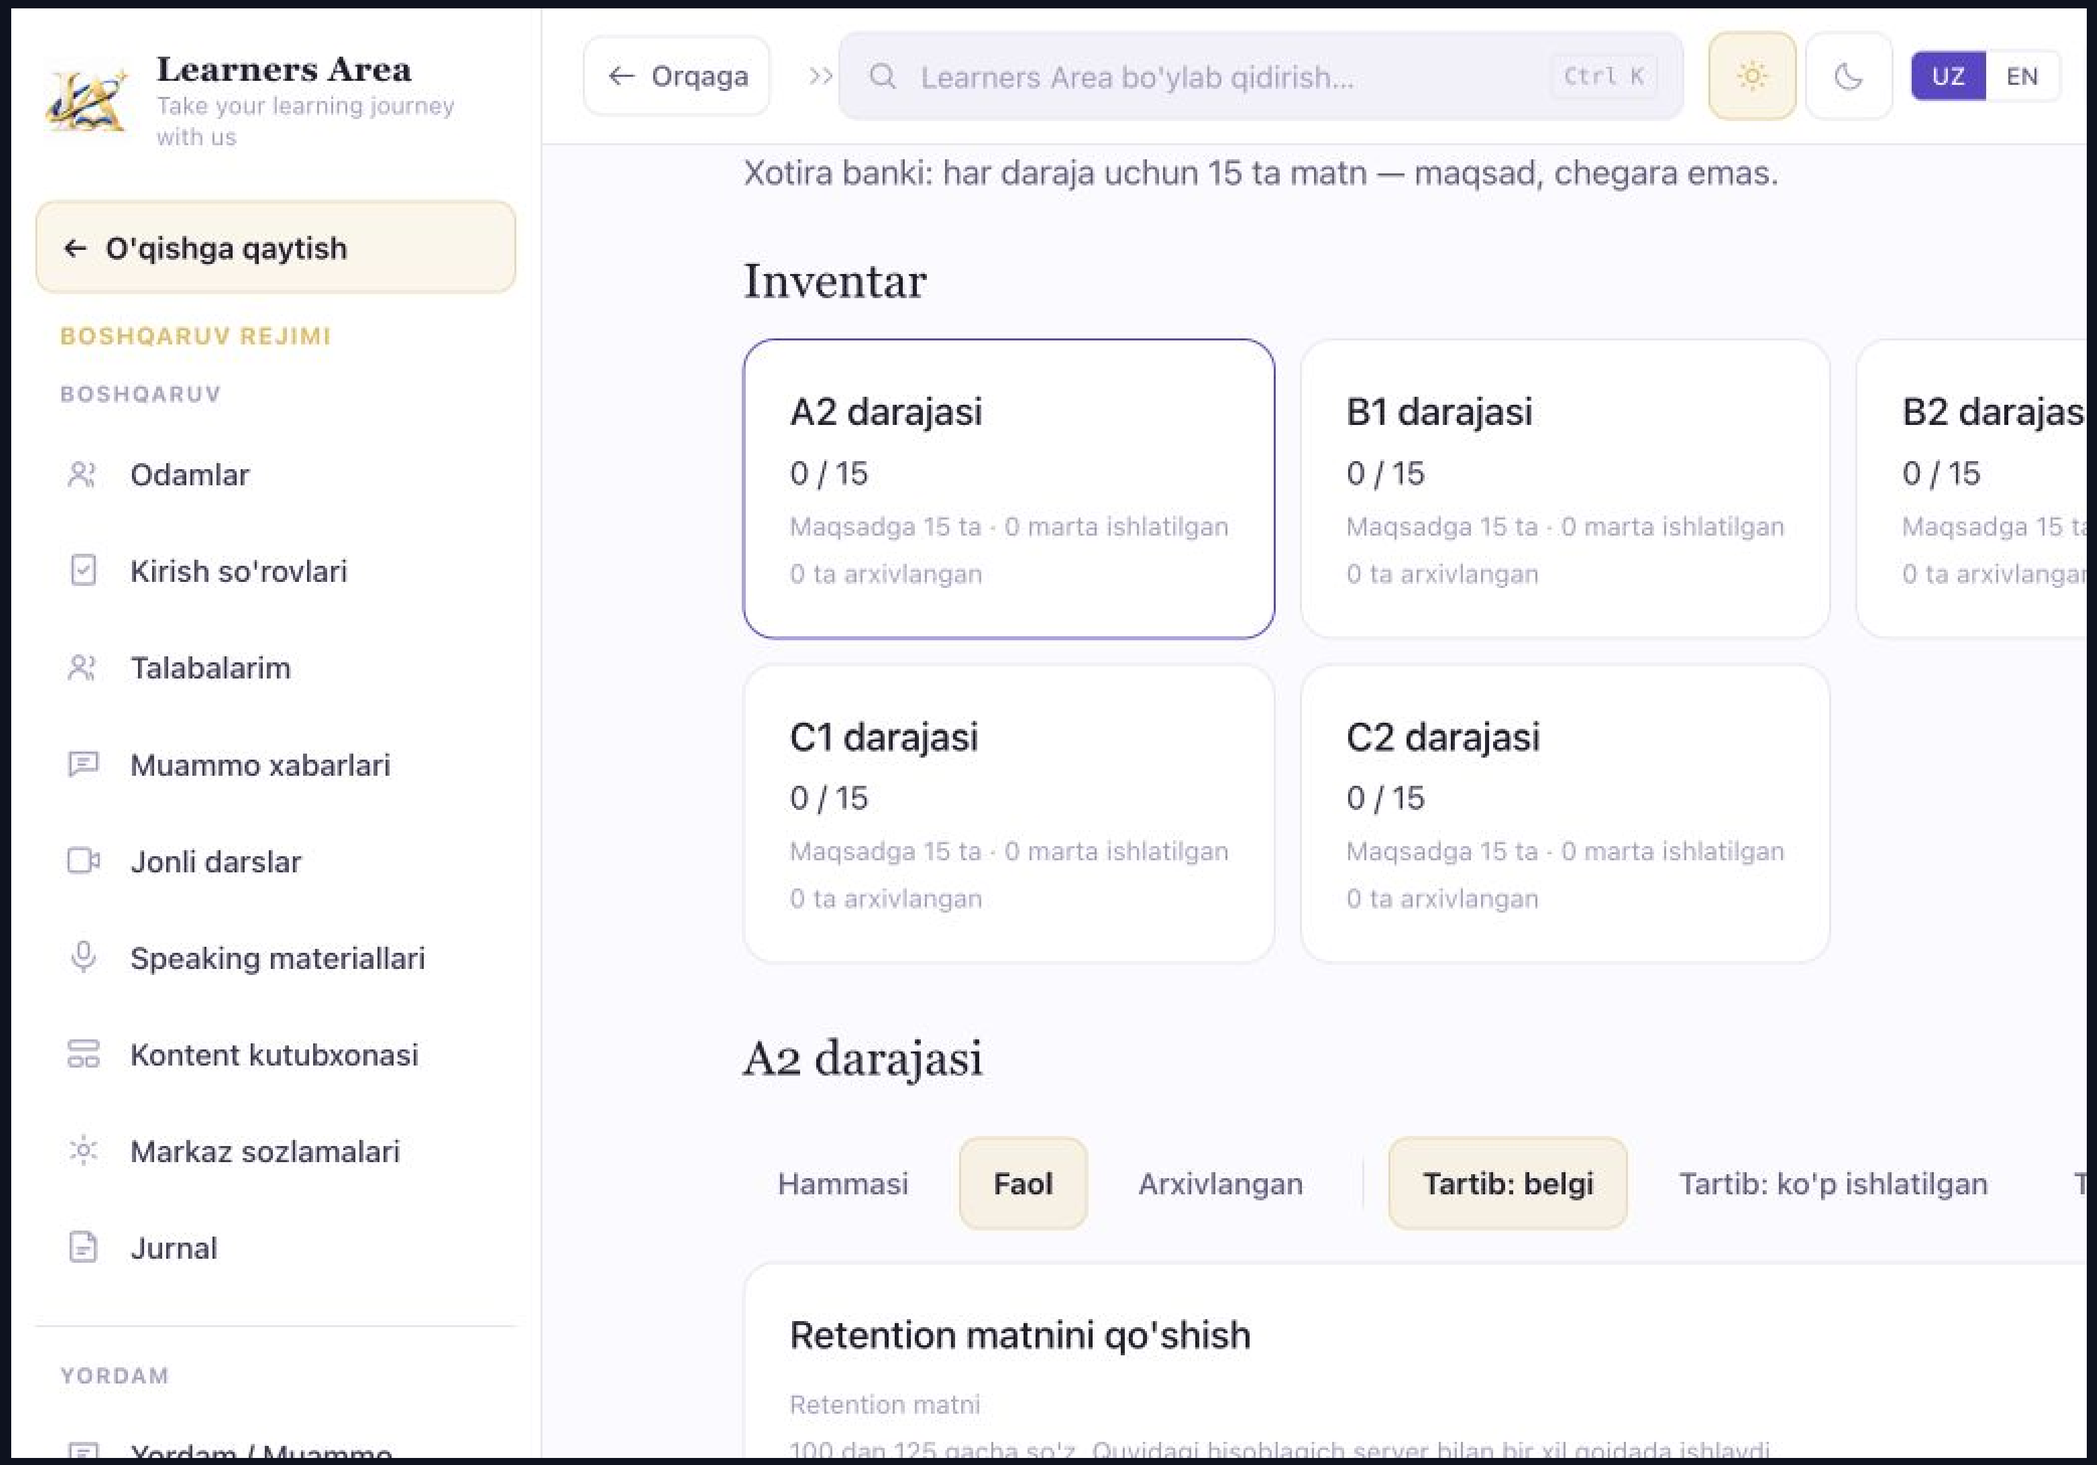

11-pinterest-learning-motion-direction

DIRECTION ONLY · Education interface illustration preview. Pinterest login modal limited inspection; animation playback NOT verified.

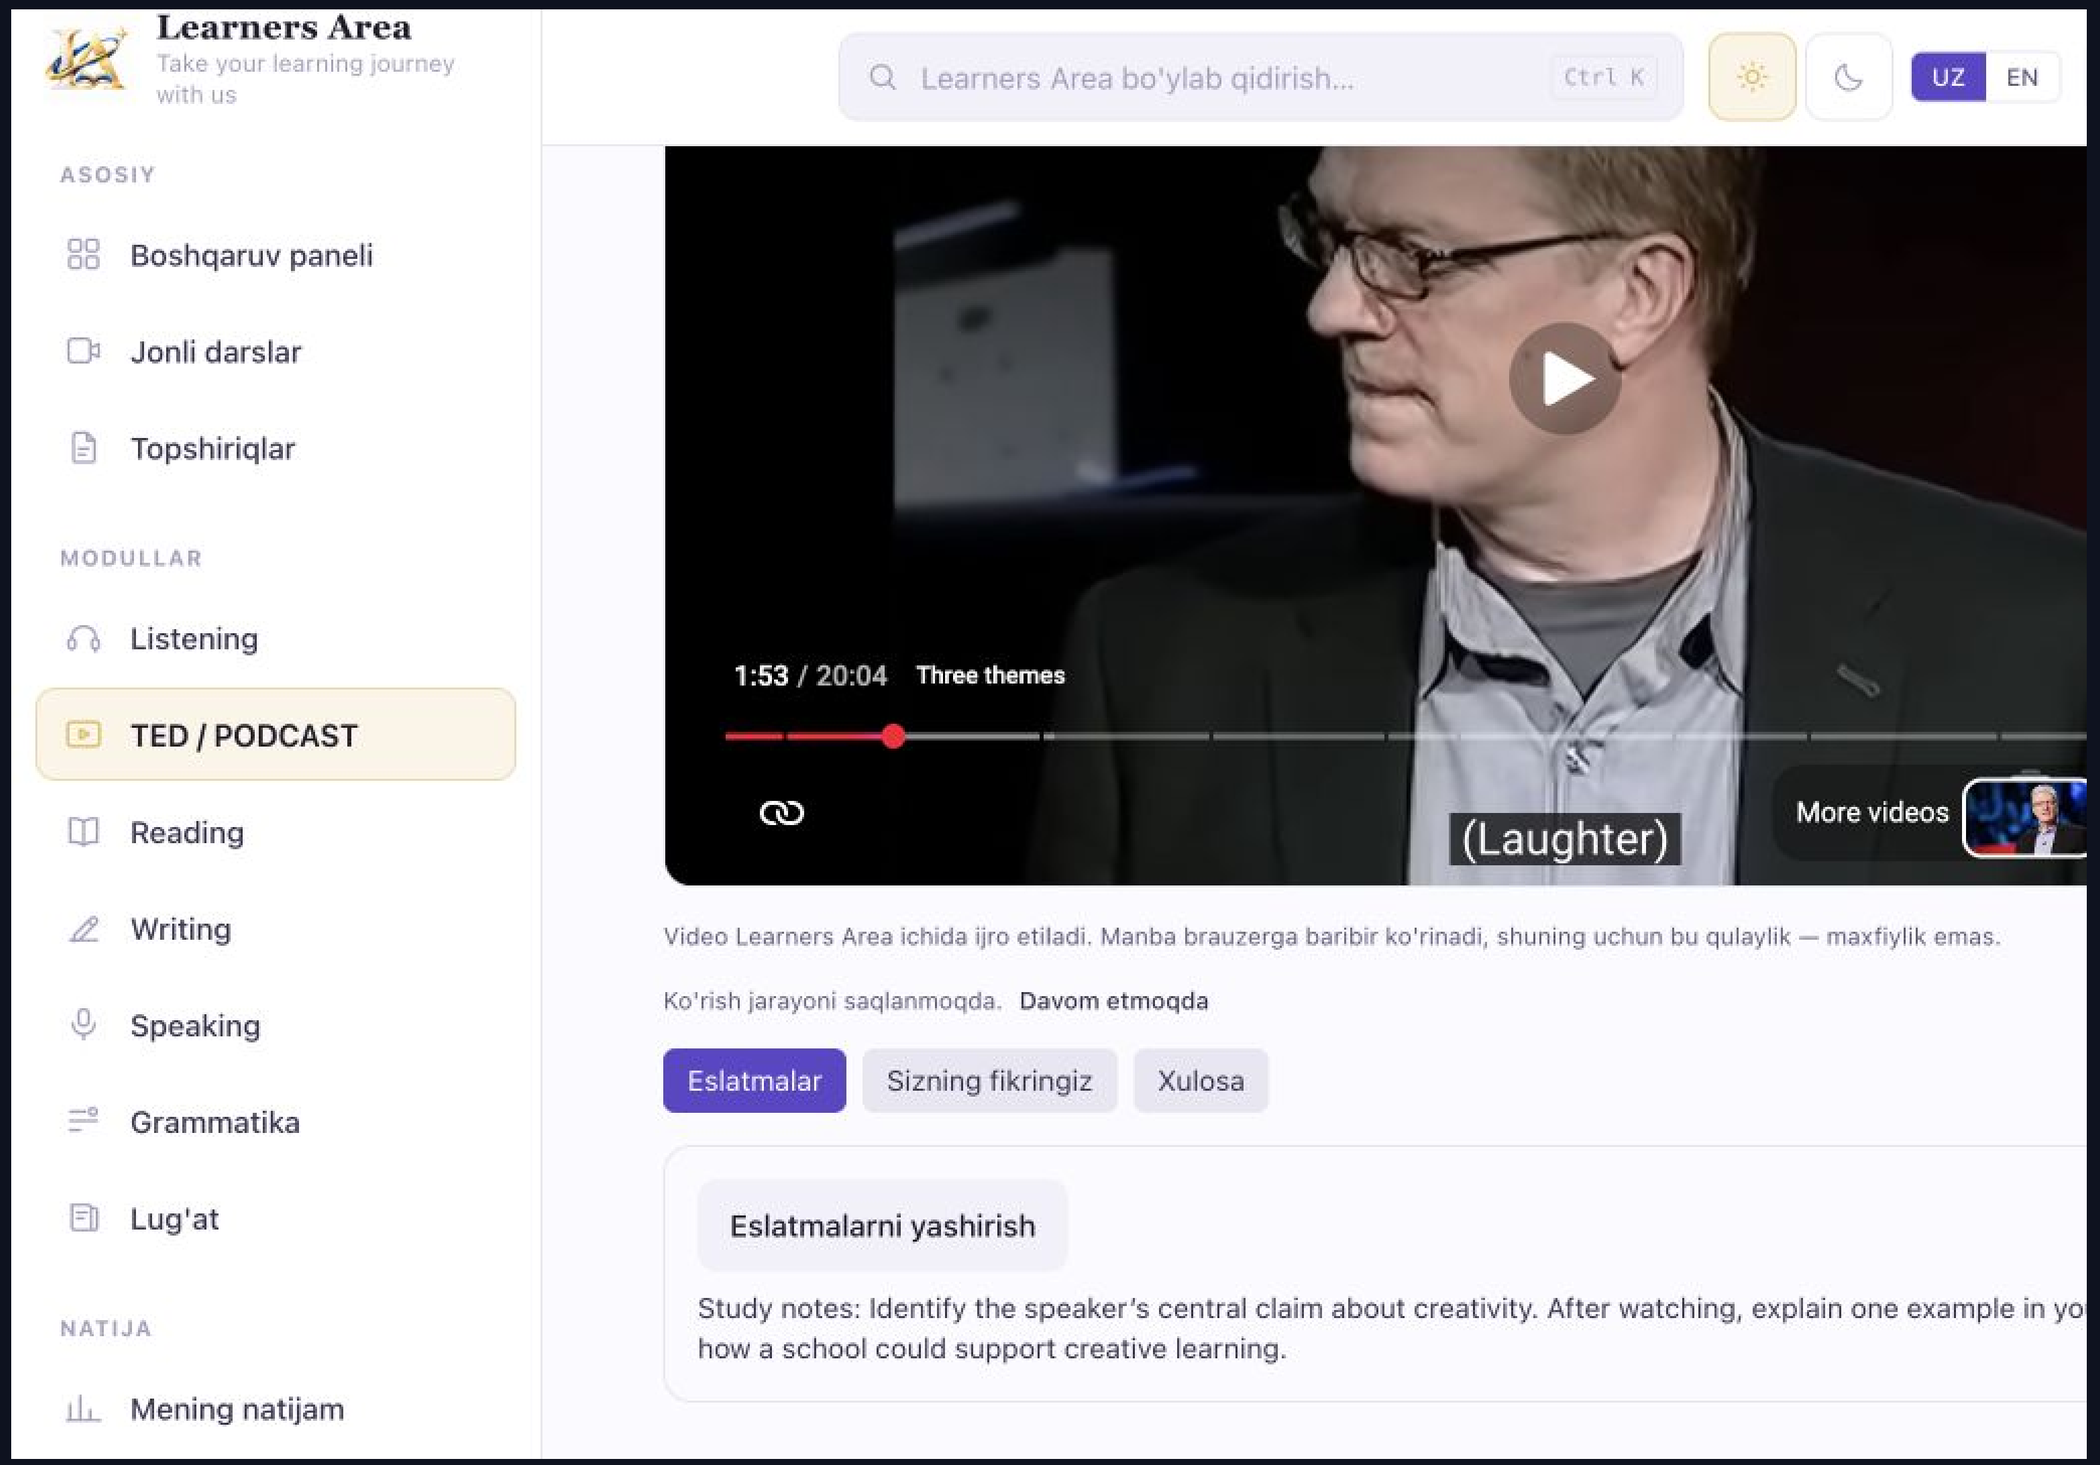

october-final-preview-retention

HISTORICAL QA · Prior final Preview inventory. Empty bank is a real content-readiness blocker, not a successful populated acceptance test.

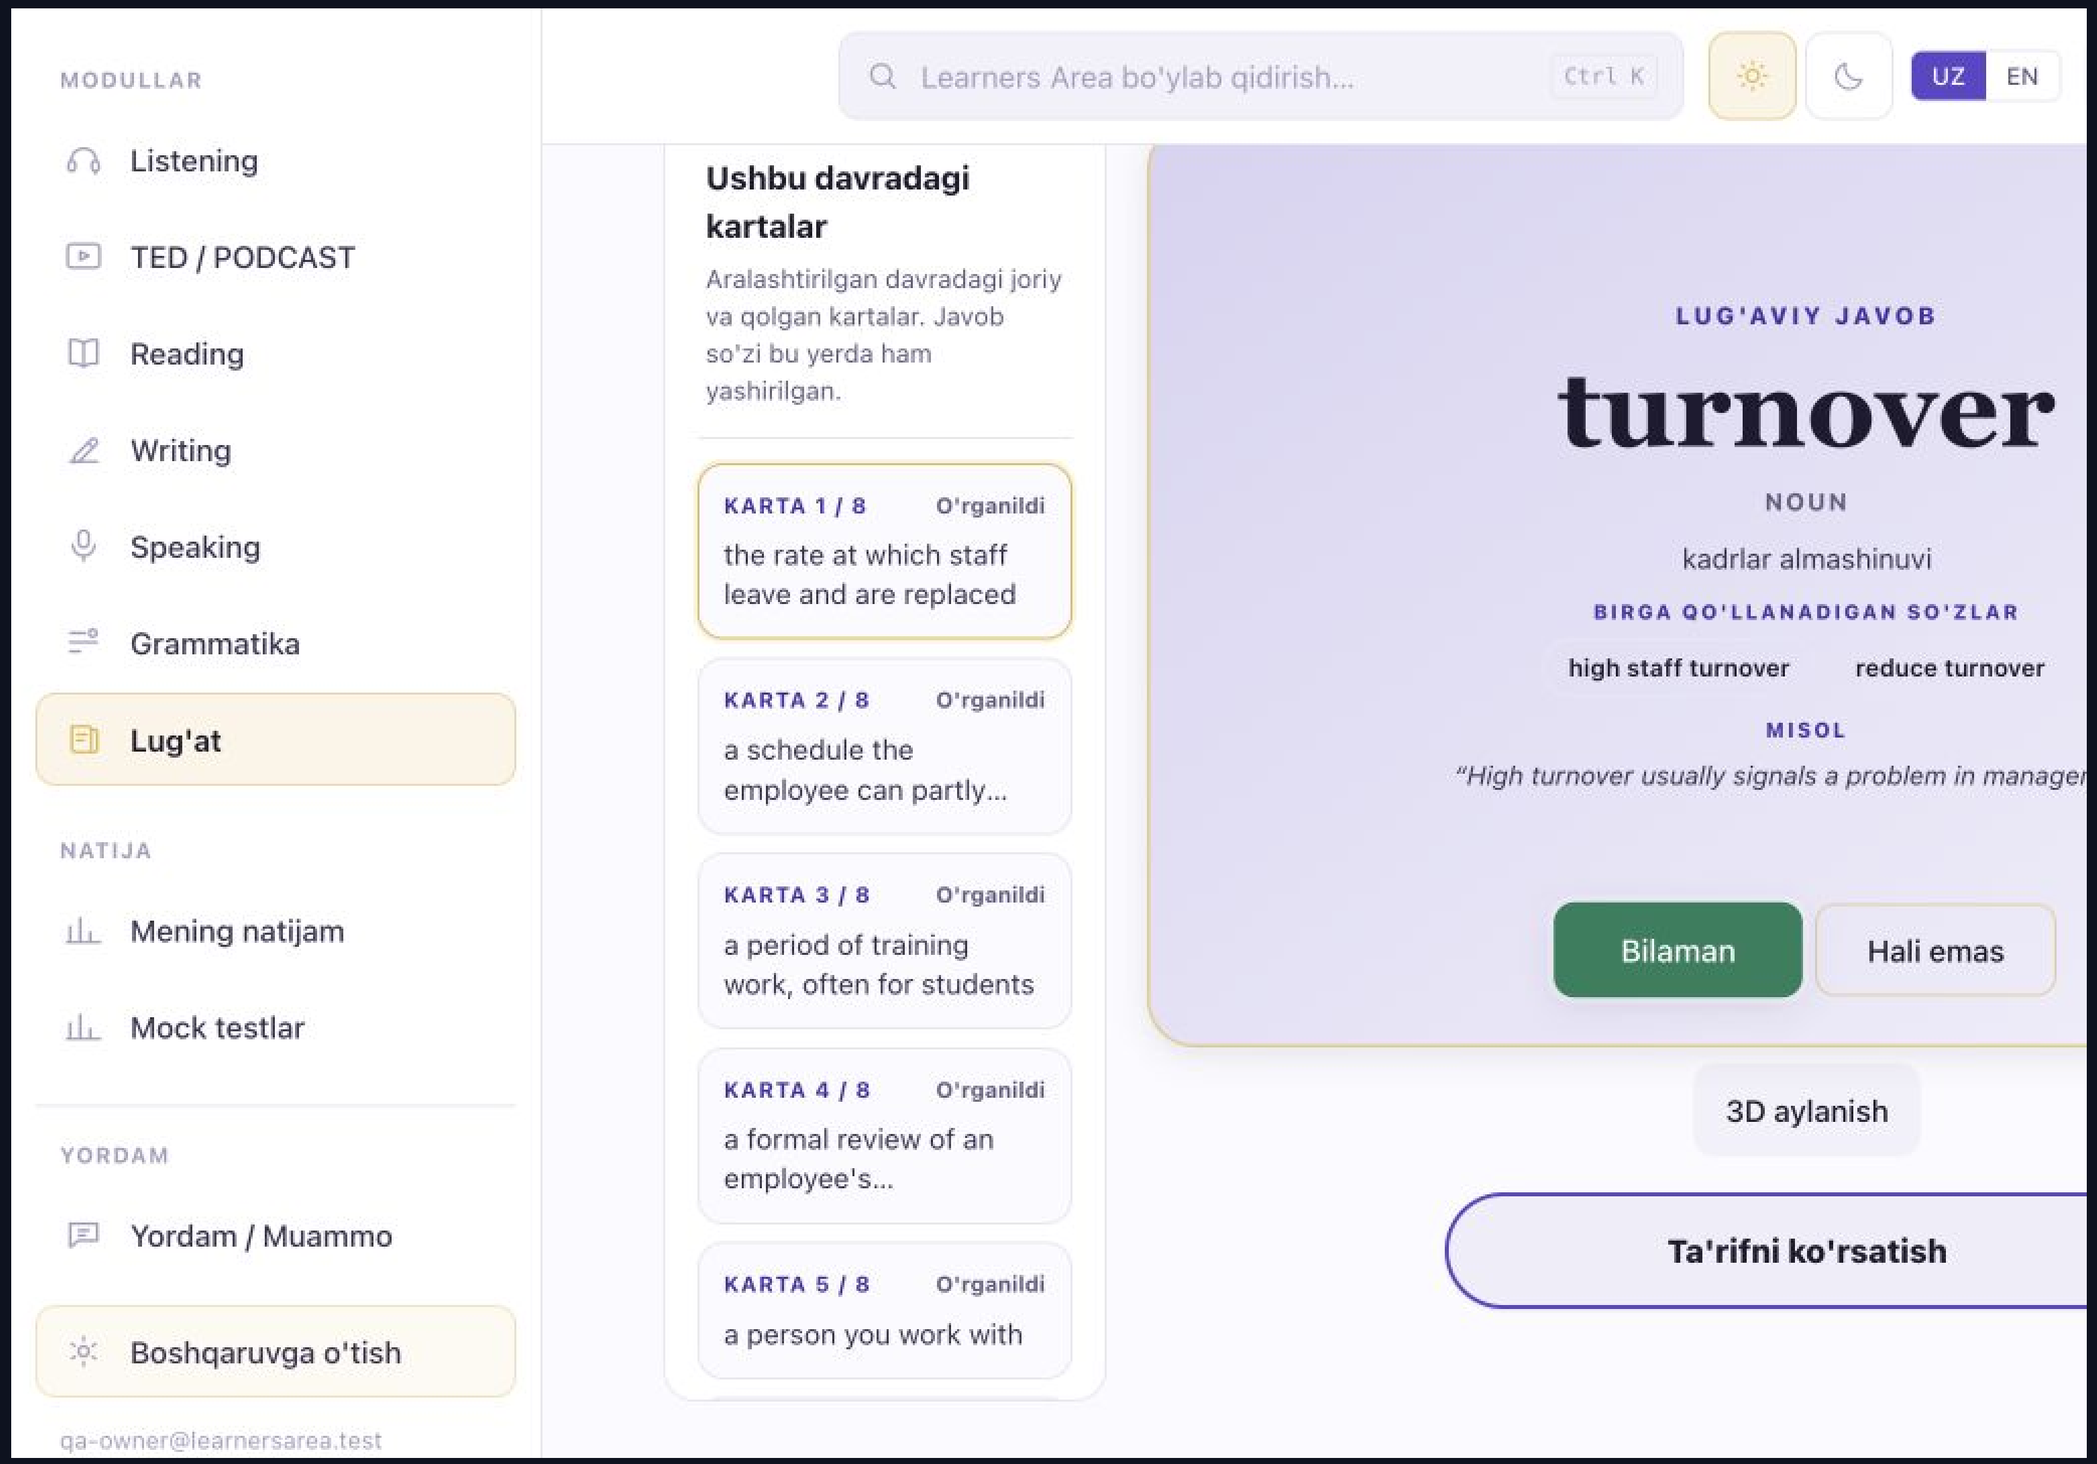

october-final-preview-video

HISTORICAL QA · Prior final Preview video page. Native provider UI is not the exact six-control custom player now requested.

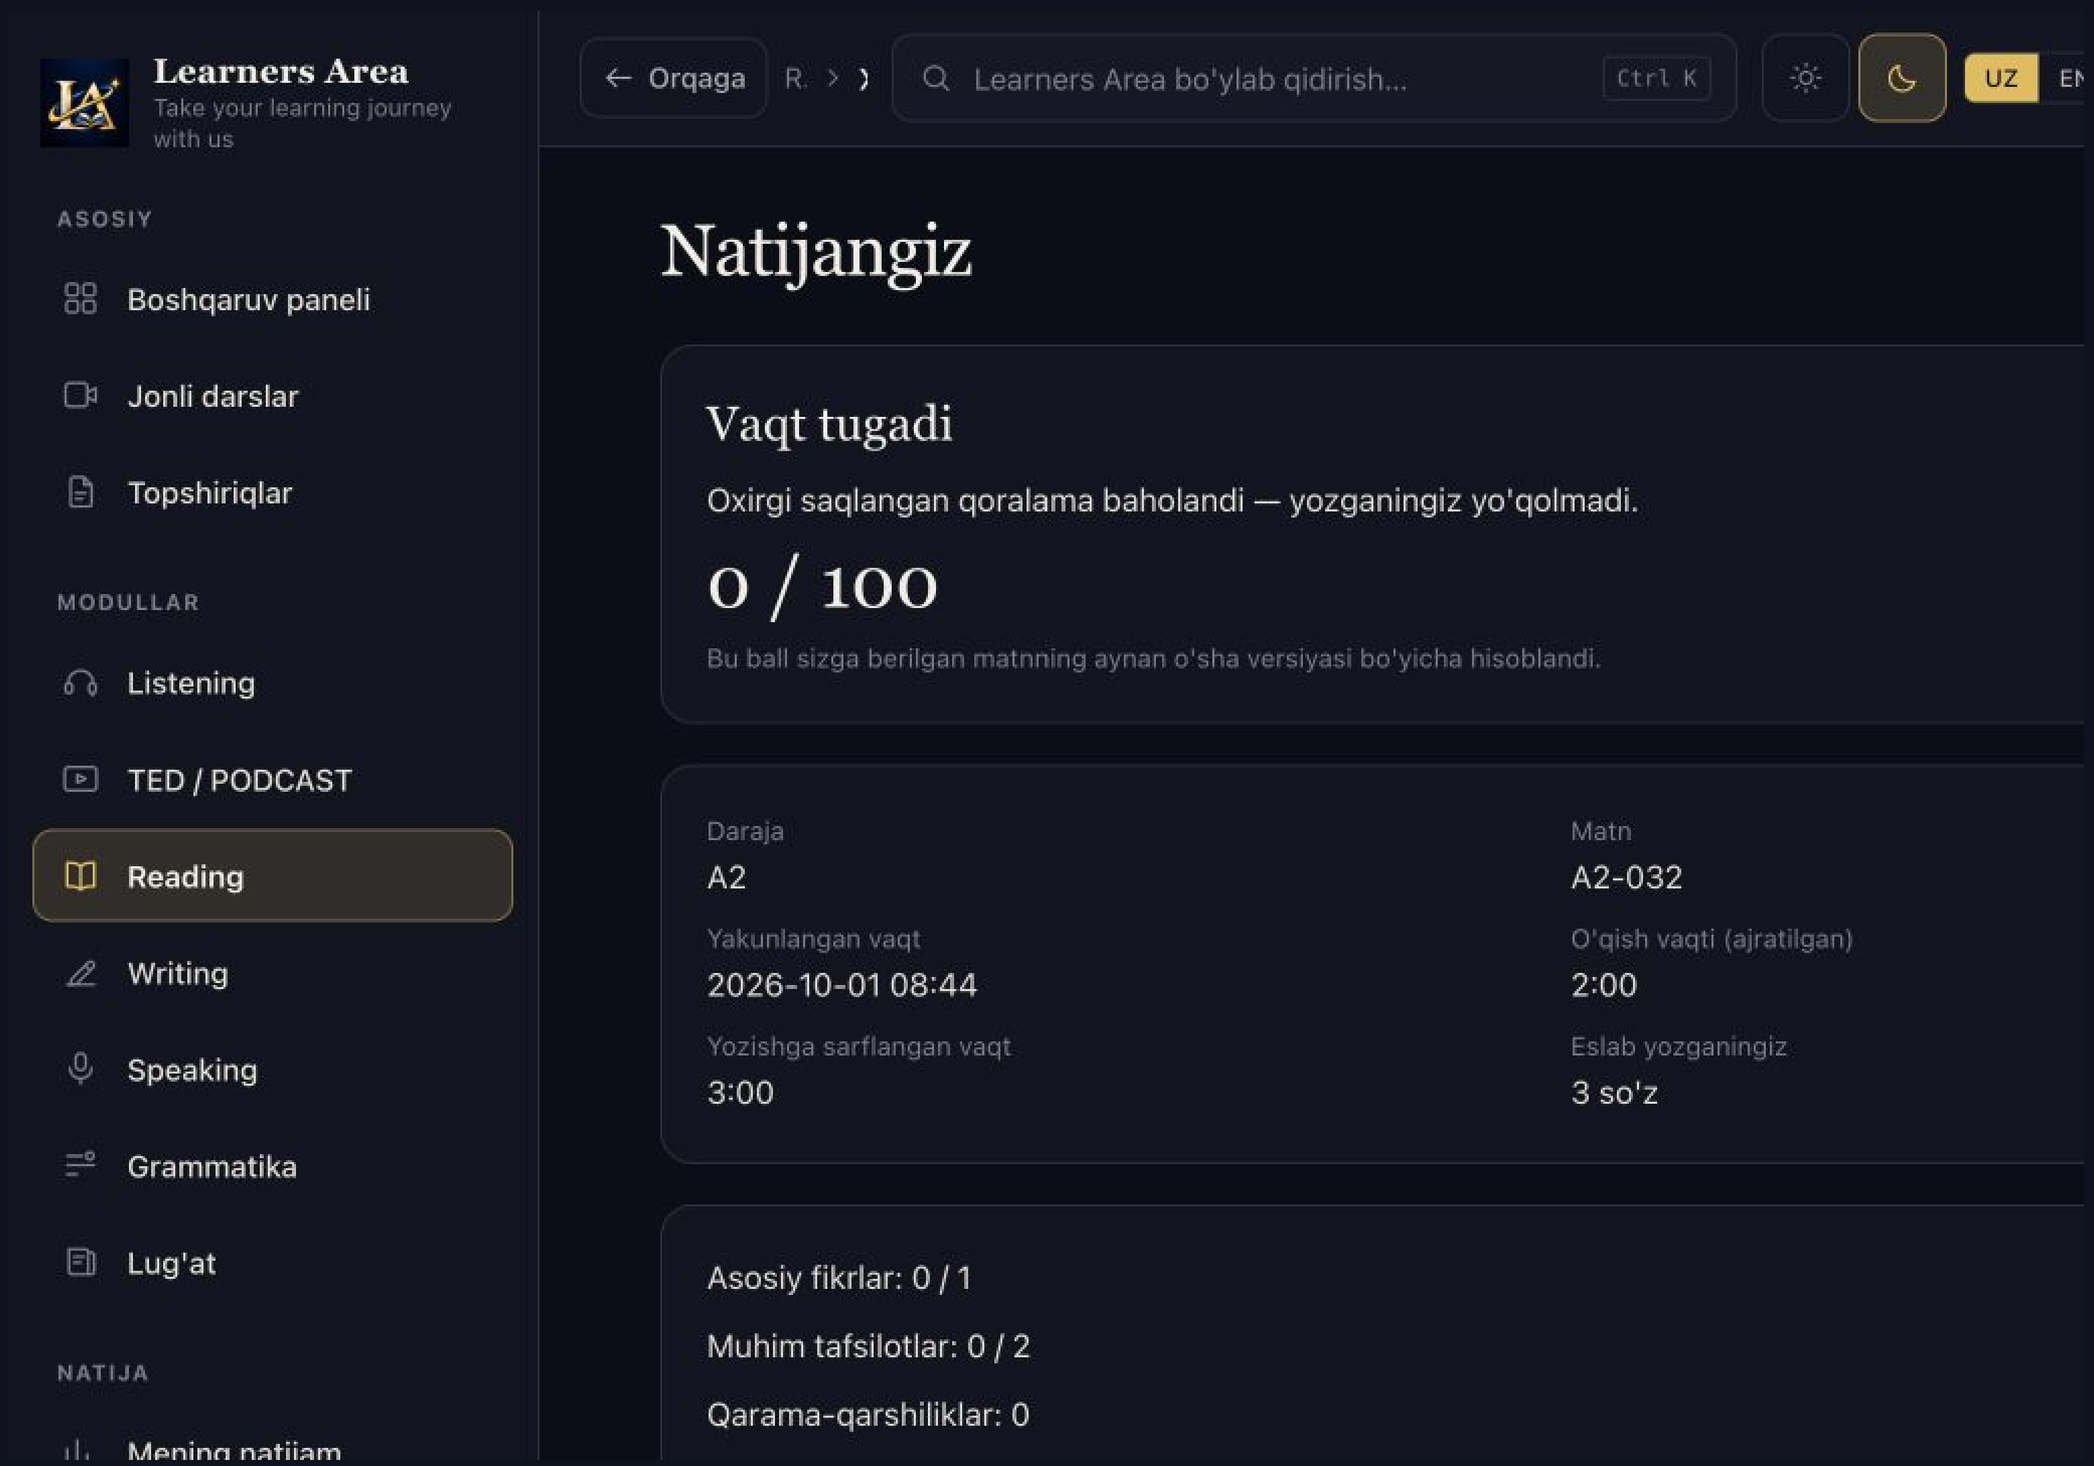

october-live-baseline-flashcard

HISTORICAL BASELINE · Flashcard before later fixes; compare label/source SHA in TXT before drawing conclusions.

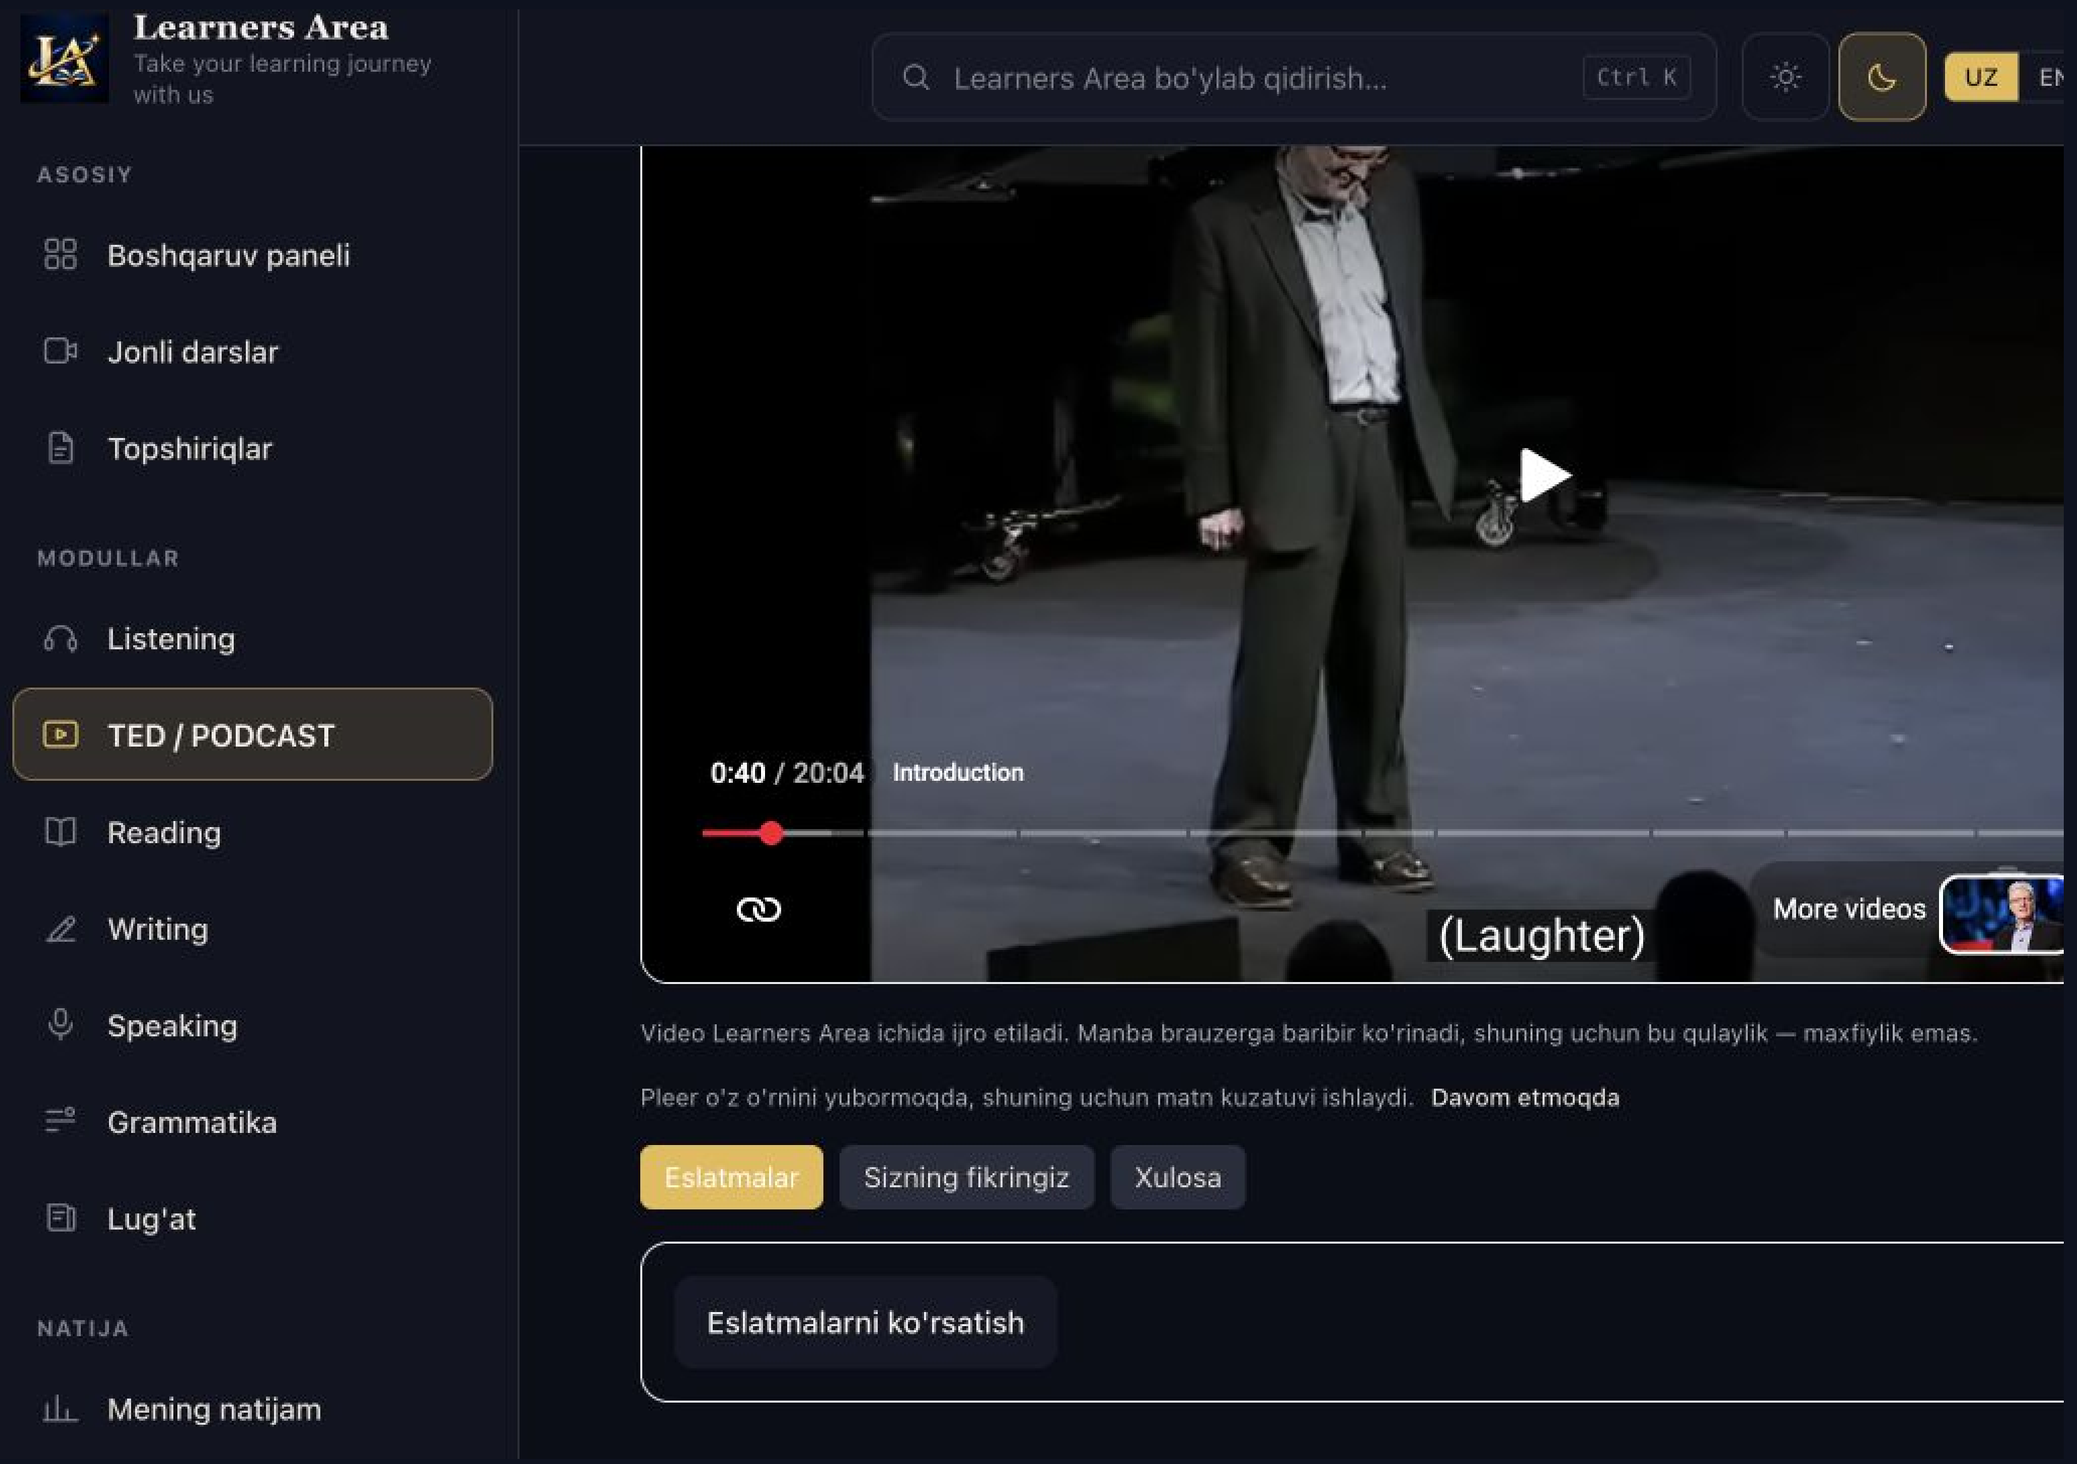

october-local-retention-timeout

HISTORICAL LOCAL QA · Natural deadline/result evidence. Local evidence is distinct from current Preview acceptance.

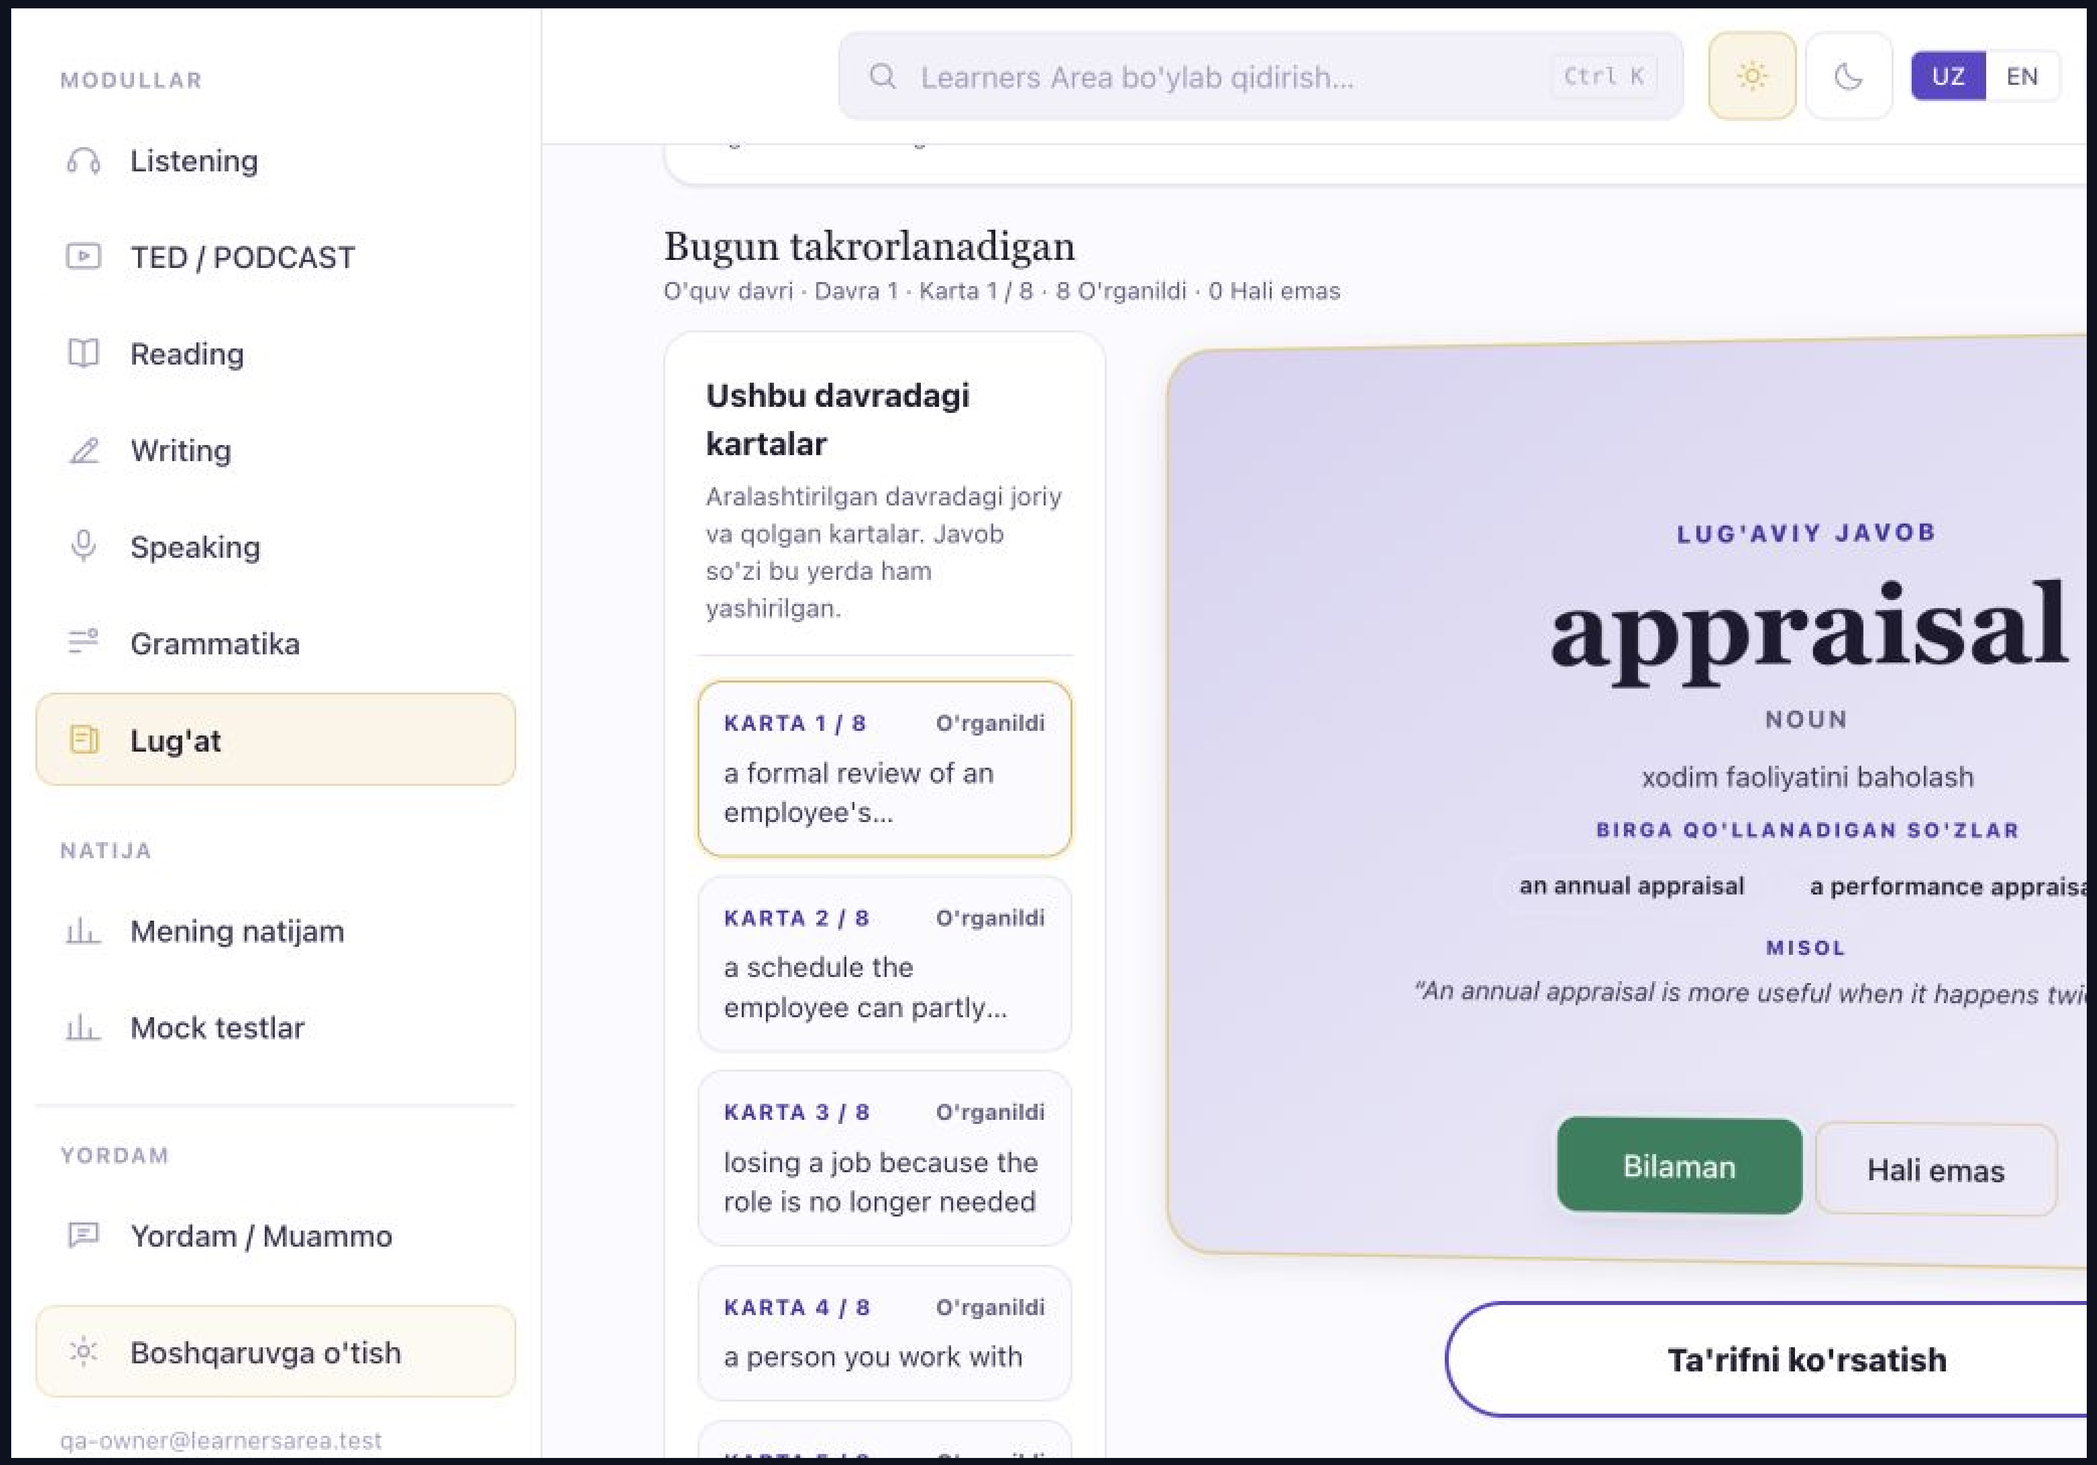

october-local-video-cc

HISTORICAL LOCAL QA · Native captions/playback. Does not demonstrate removal of YouTube branding or recommendations.

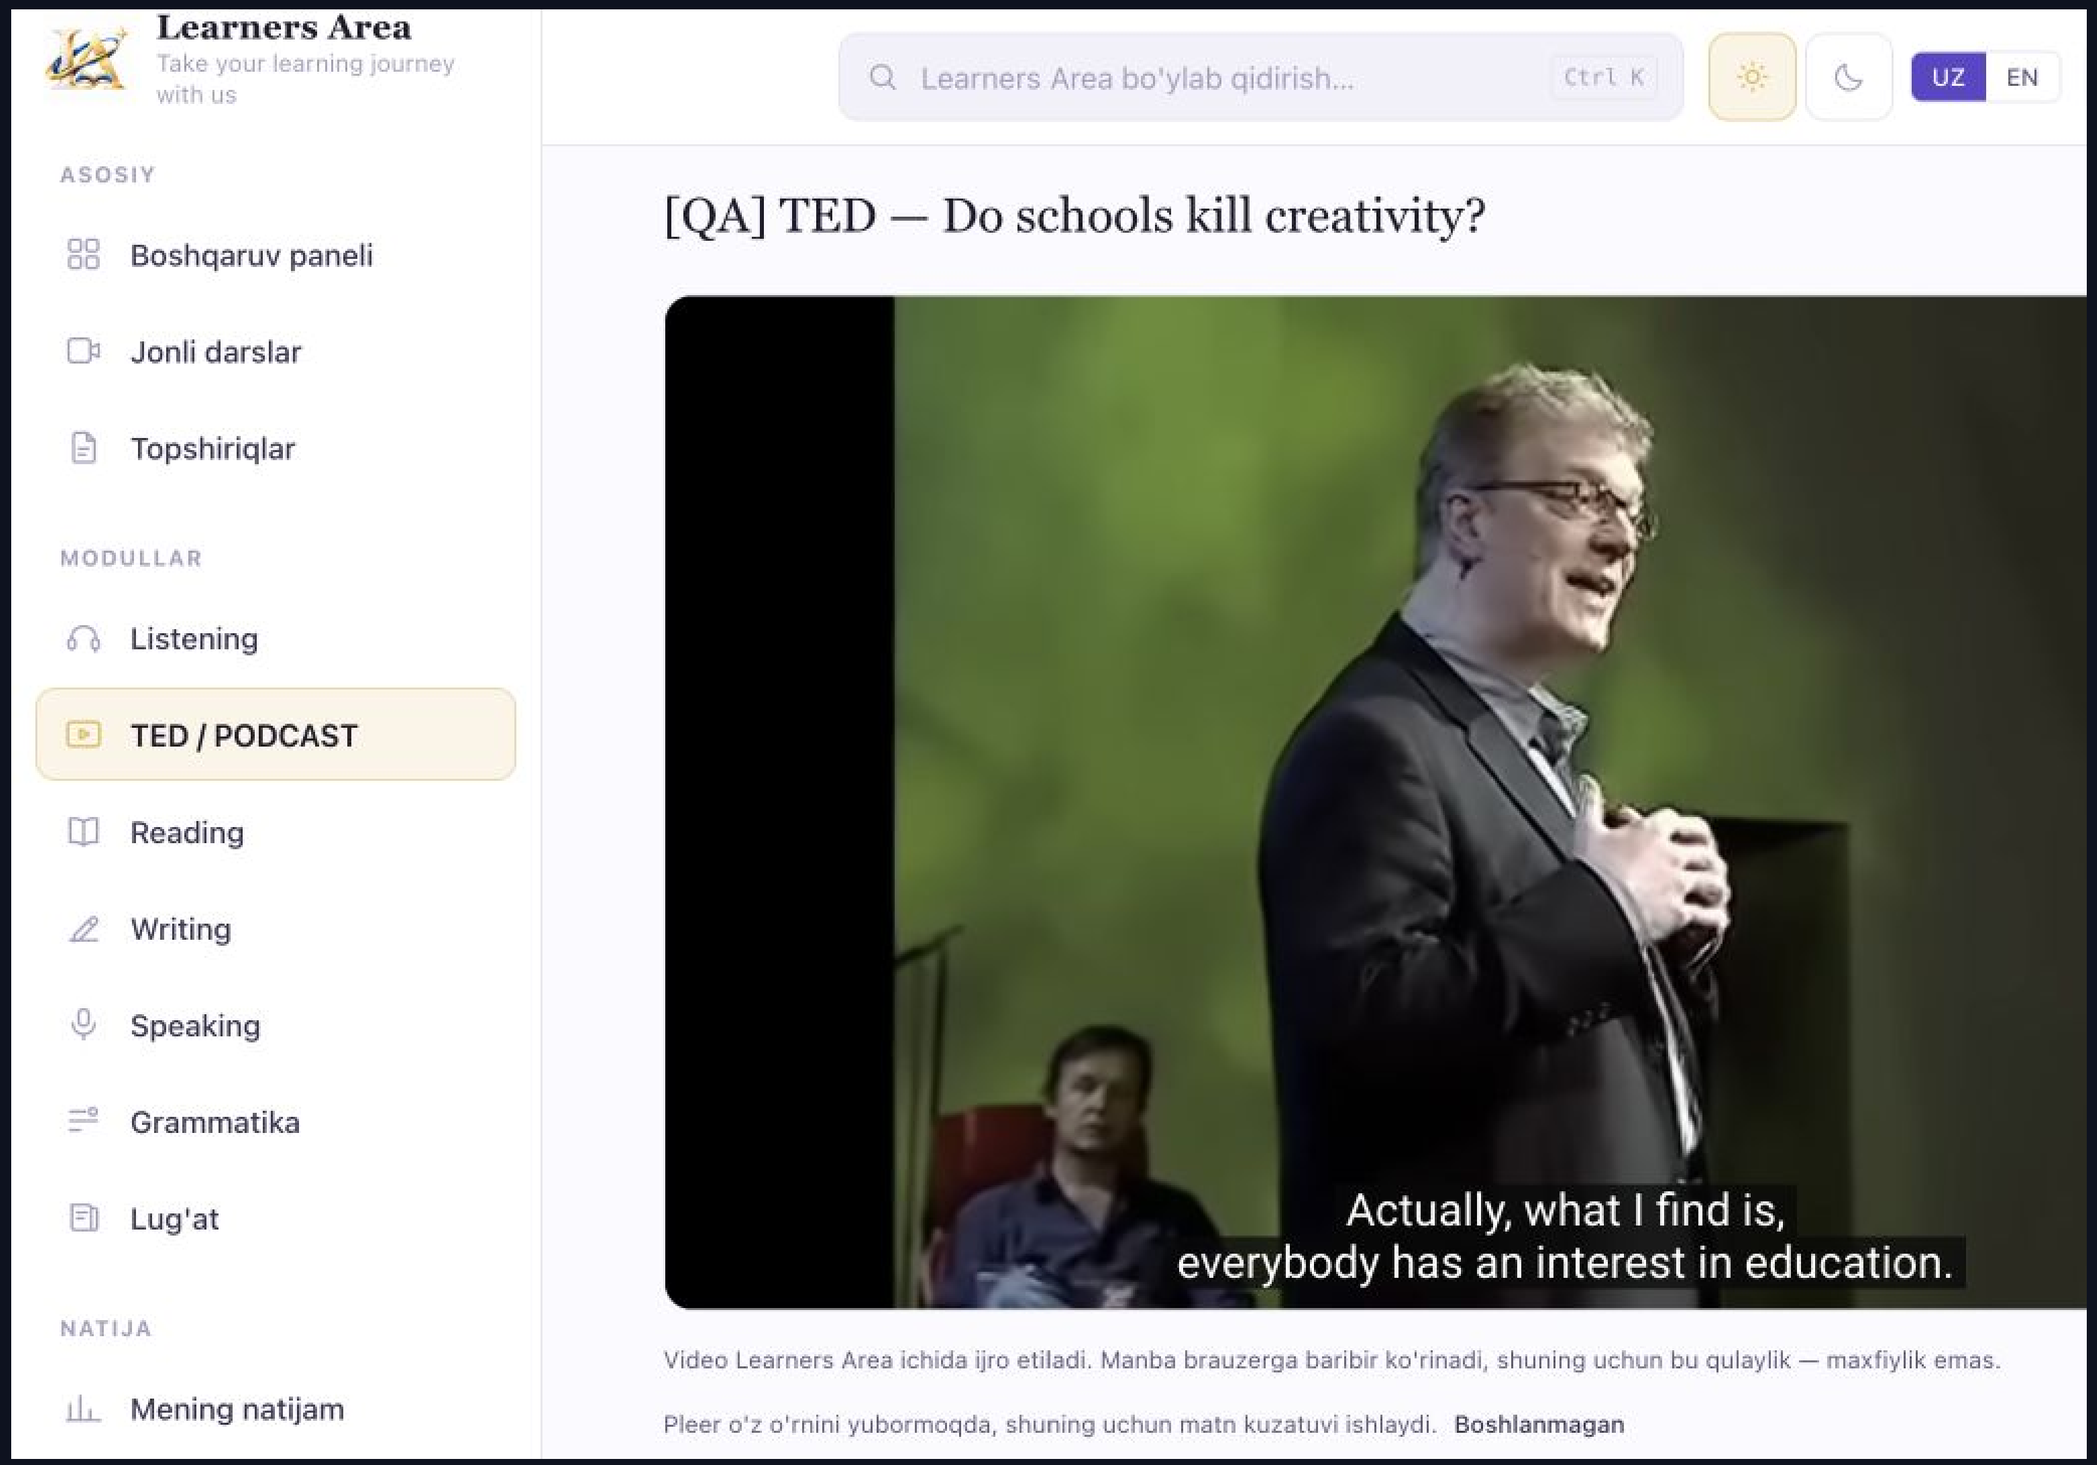

october-preview-flashcard

HISTORICAL PREVIEW QA · Visible 3D mechanism previously checked; new typography still needs Safari/mobile QA.

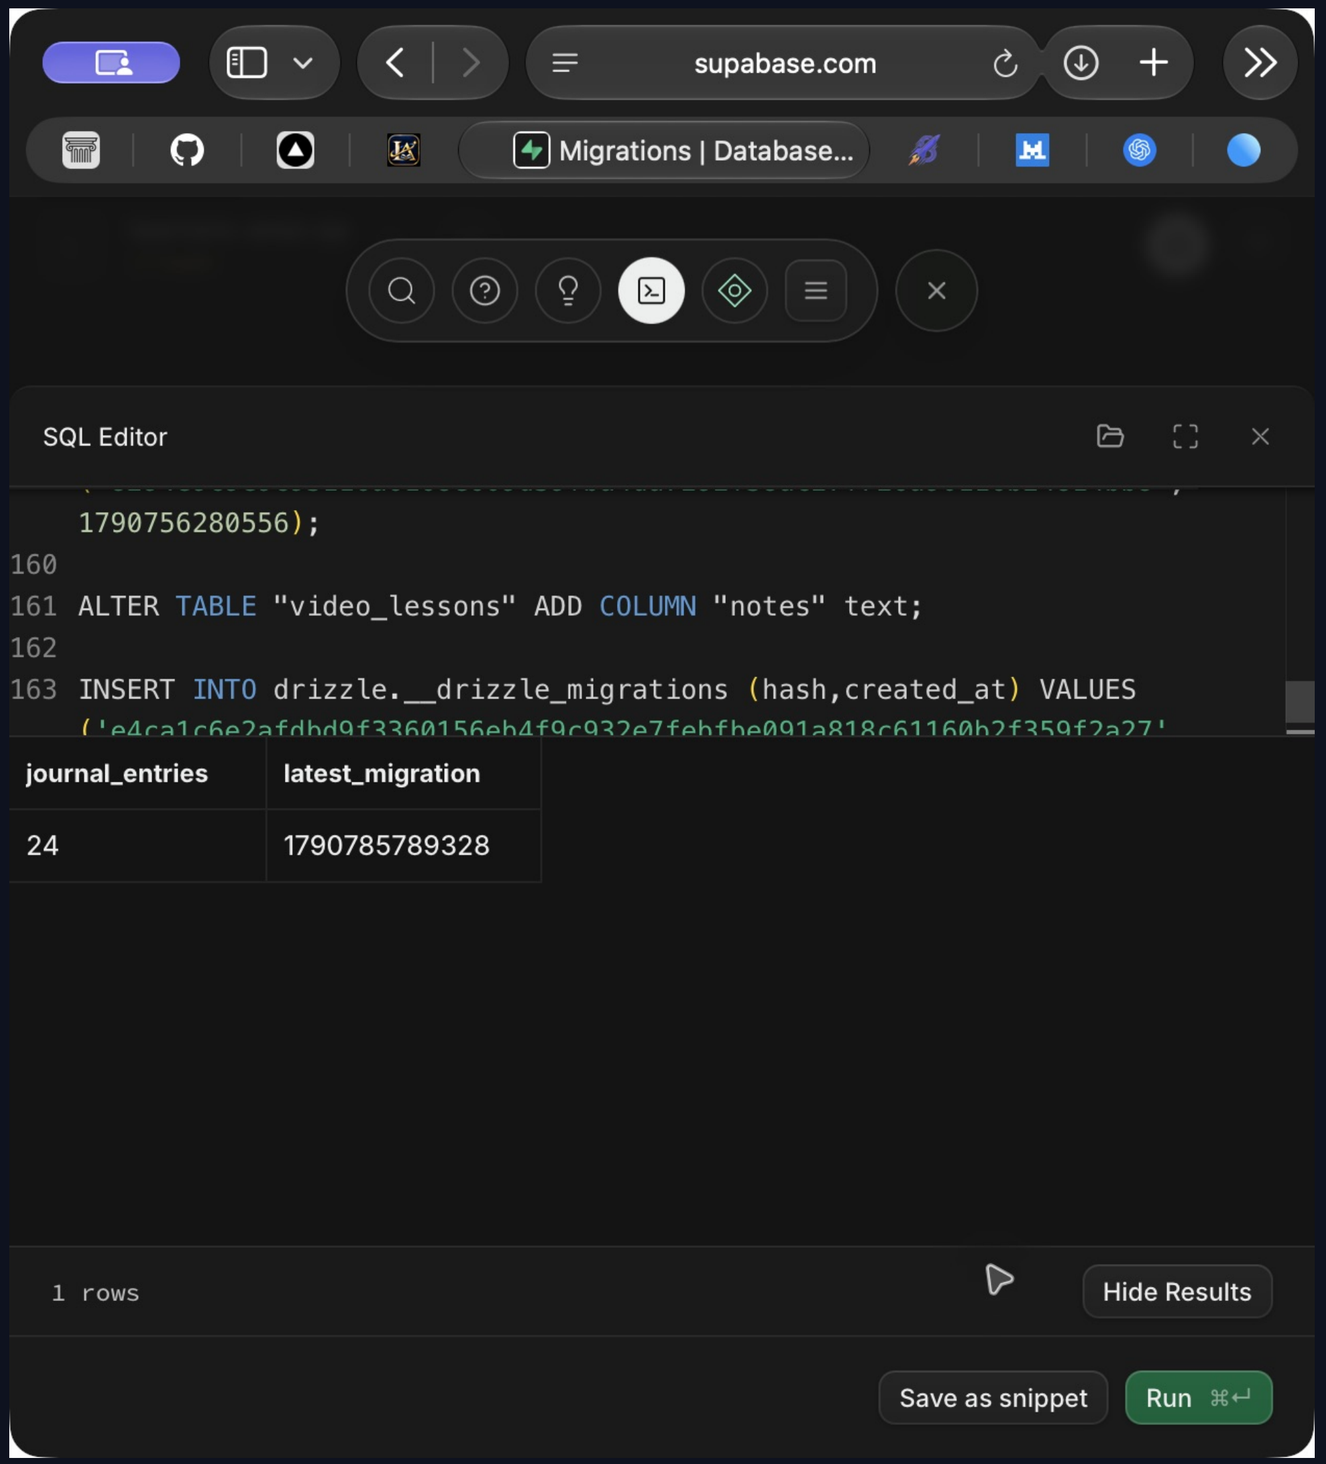

october-preview-ted-playback

HISTORICAL PREVIEW QA · TED playback and native captions. Exact requested player appearance remains an open architecture gate.

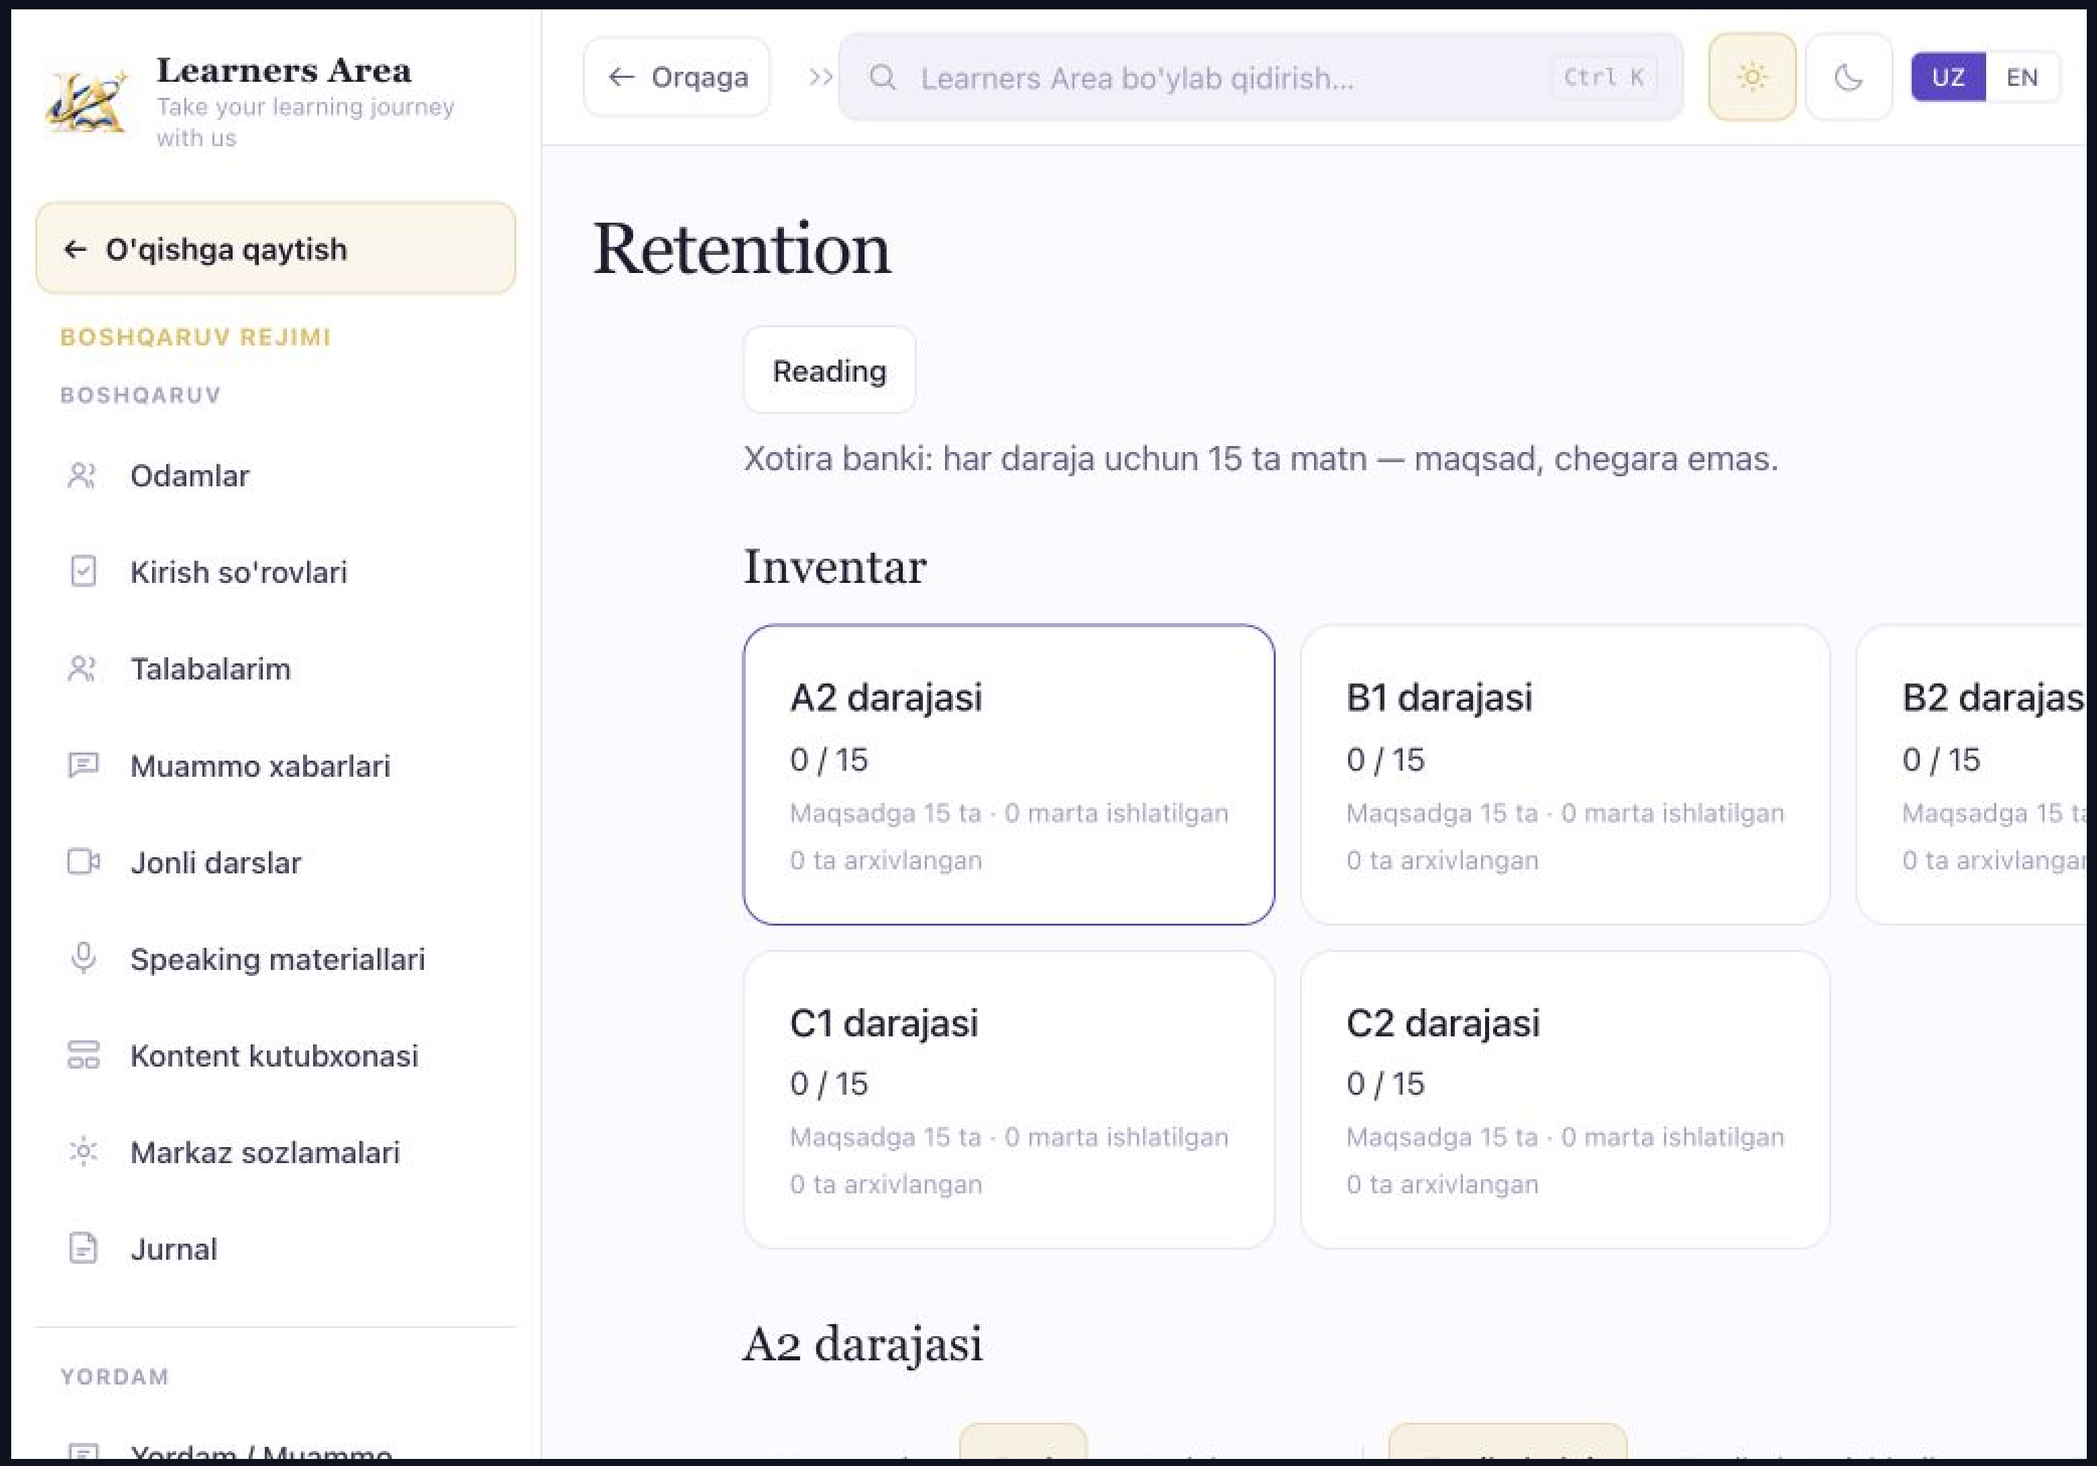

qa-migrations-applied

HISTORICAL QA DATABASE · Migration journal confirmation. Do not rerun migrations blindly or modify Production.

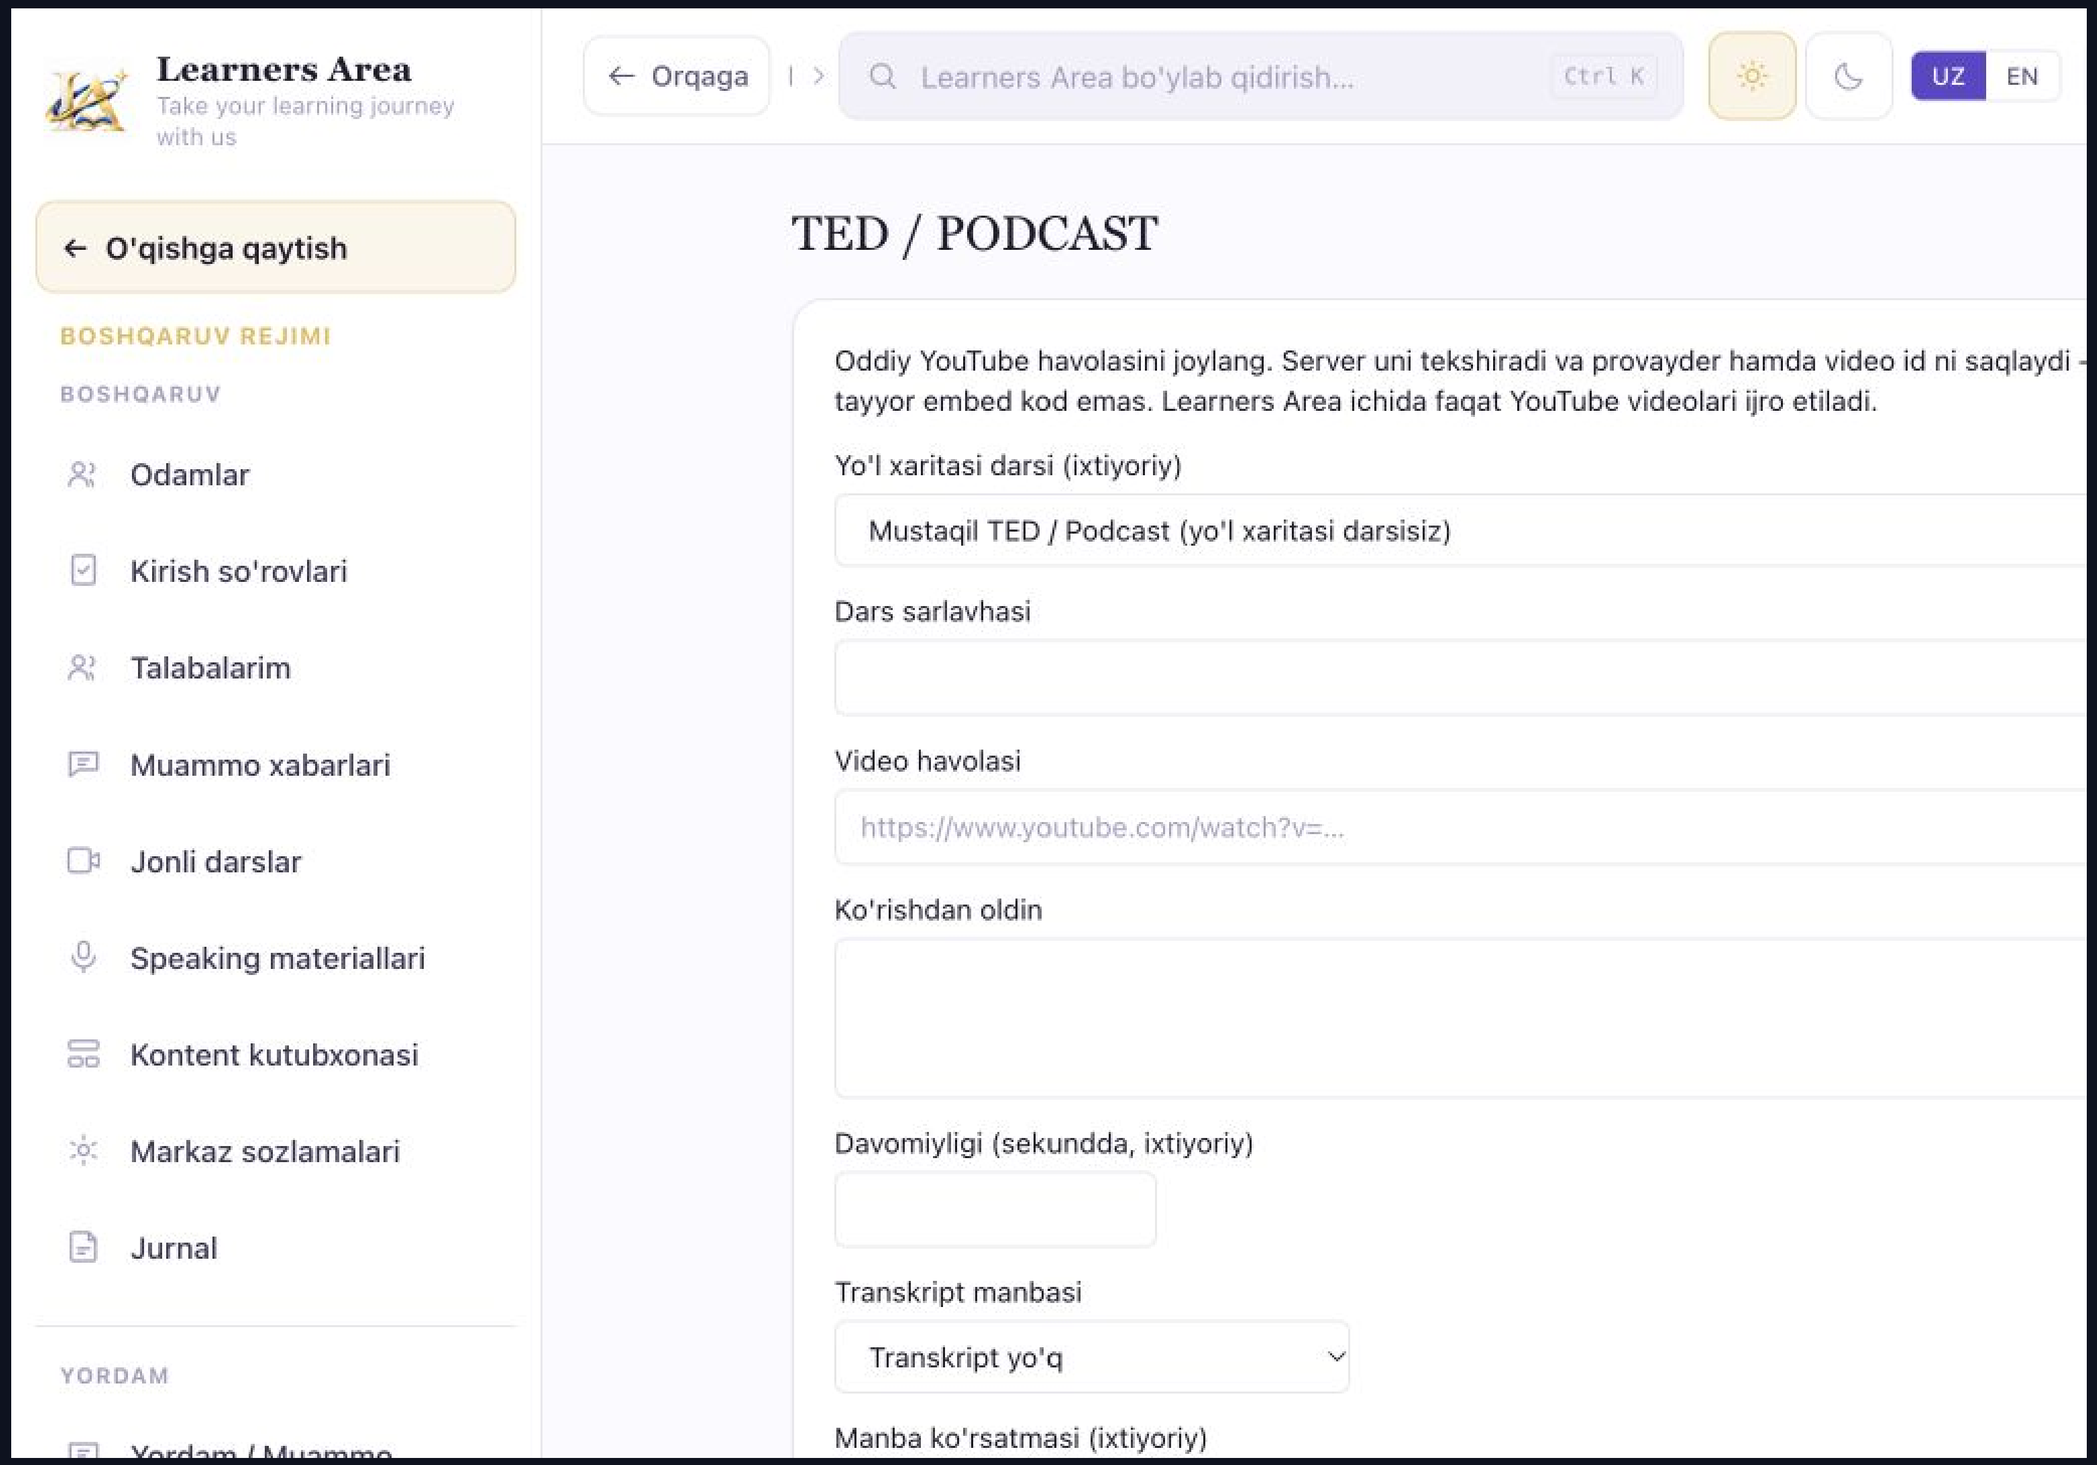

qa-retention-after-migration

HISTORICAL QA · Retention page after schema repair; populated bank/role/privacy acceptance still required.

qa-video-after-migration

HISTORICAL QA · Video authoring after schema repair; retain URL → title → notes and staff authorization.

ORIGINAL REFERENCE PACK — HISTORICAL APPENDIX

The following 31 pages come from arena/reference-materials at 0627312a. Earlier fonts, branches, phase STOP rules and native TED layouts are superseded by the latest TXT.

Preserve useful product requirements; never restore obsolete source SHAs or branding.

Learners Area - Arena Visual Reference

Purpose: visual evidence/reference for Arena implementation.

Priority: V4.2 master prompt > hardened repository > this PDF > external reference sites/code.

The images include current Learners Area Preview captures and owner-supplied reference-site captures.

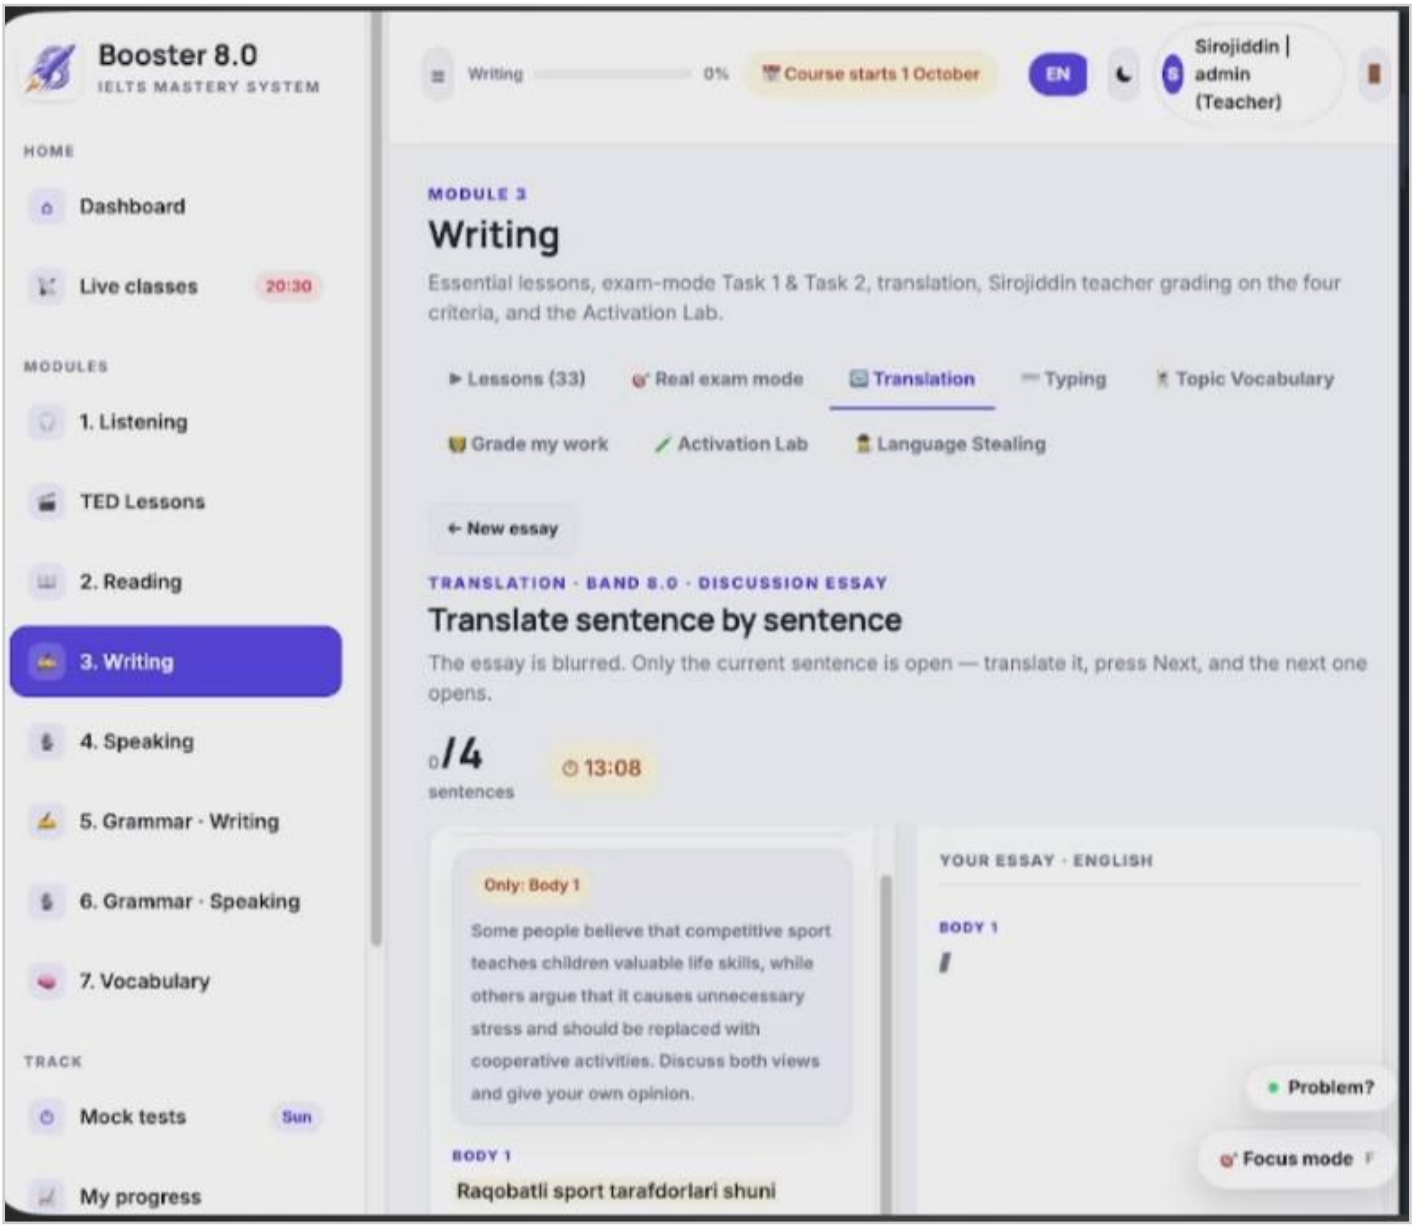

Do not copy third-party branding/assets/source code wholesale. Reimplement useful patterns cleanly.

Total visual pages: 28

SECTION A - MANUAL PREVIEW QA + PRODUCT REFERENCES

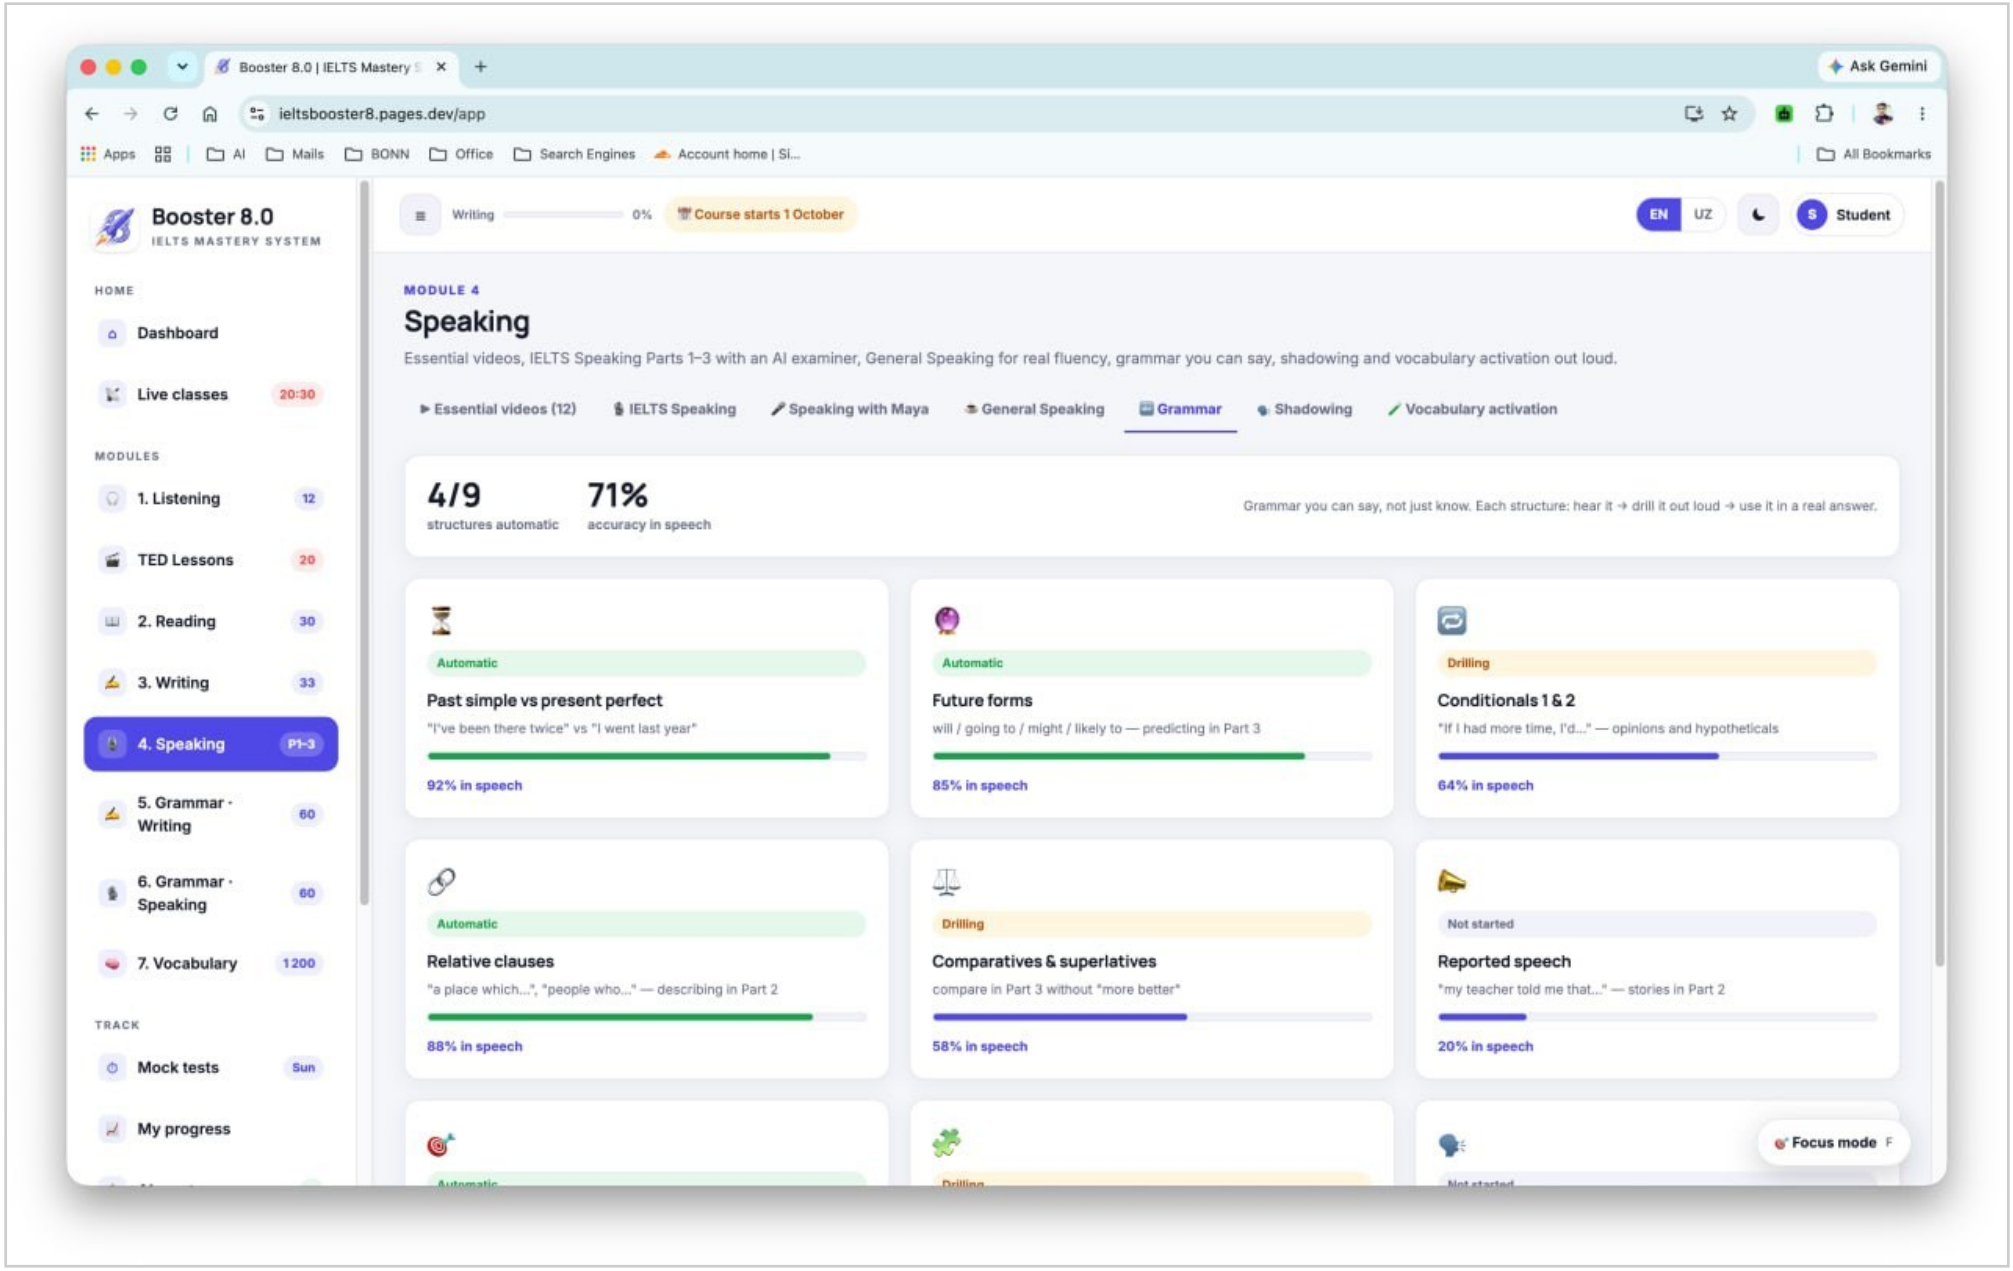

Owner-supplied screenshots from the manual Preview review and product references. Use together with the V4.2 master prompt; do not infer requirements from a screenshot when the prompt states them explicitly.

Images in this section: 23

Page 62: Screenshot 2026-10-01 at 06.47.23.png

Page 63: Screenshot 2026-10-01 at 06.50.30.png

Previous missing-file blocker N12 is now resolved for reference inspection.

These snapshots are from September30 / October1; visible old Preview URLs are not dd23e0a.

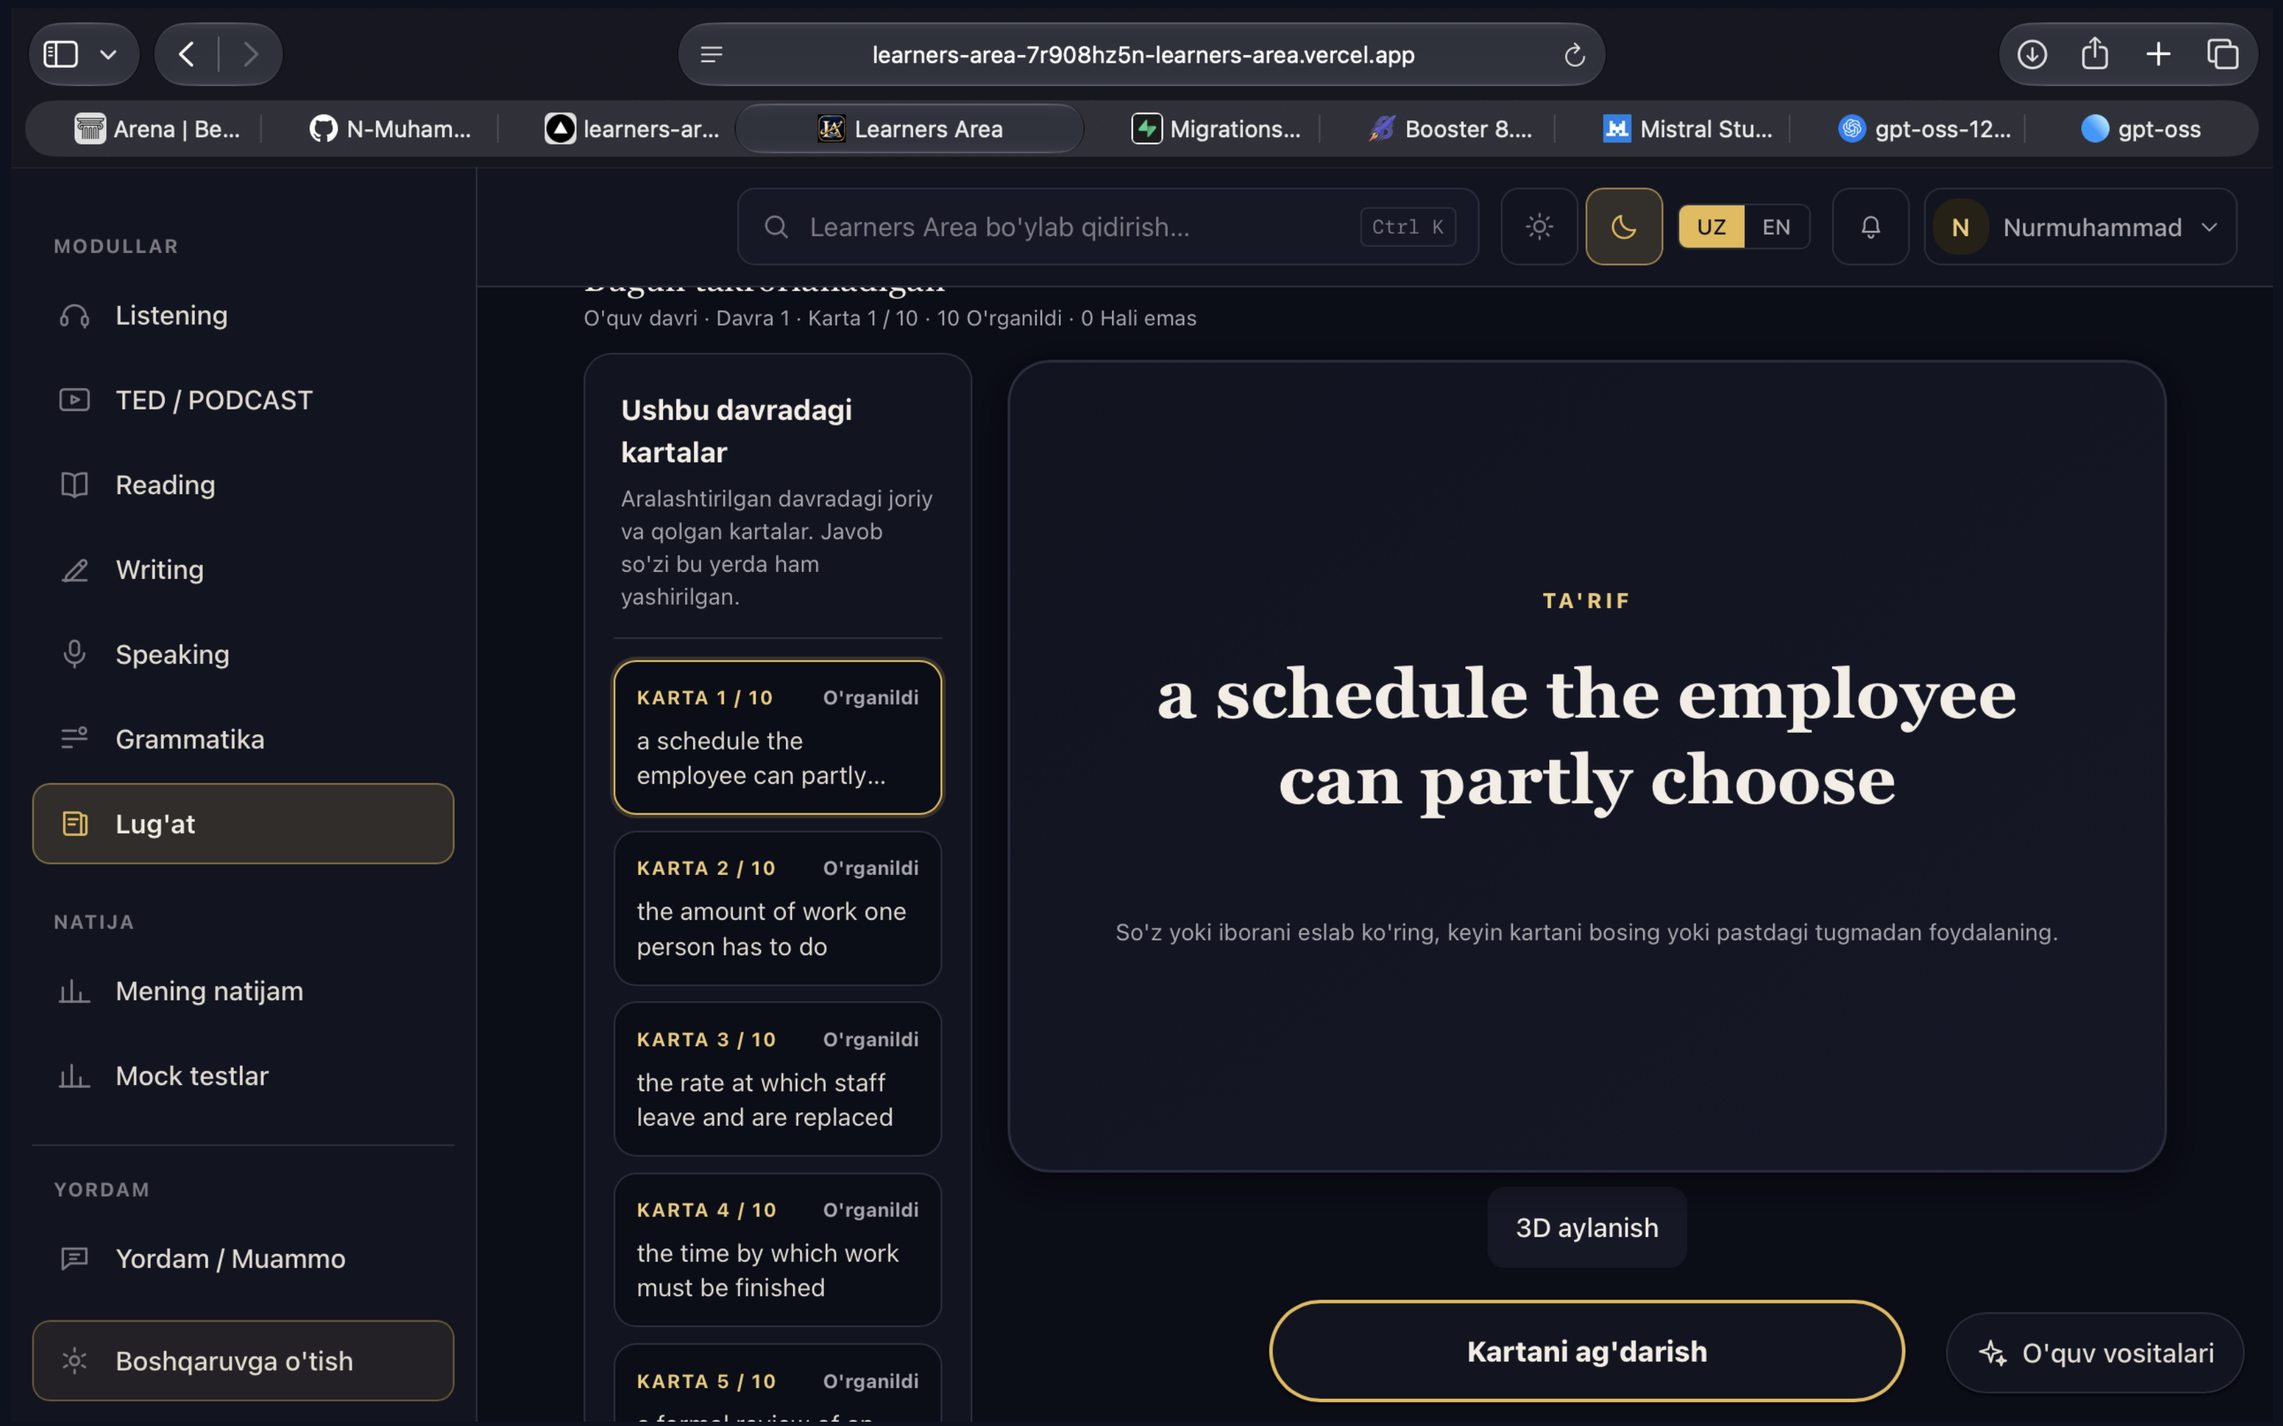

Two error digests are visible:2721559850 and149493362. Neither identifies a cause by itself.

A Typing Race still cannot prove animation timing. Browser verification remains required.

Persist these files in the sandbox before implementation; reread them after context compression.

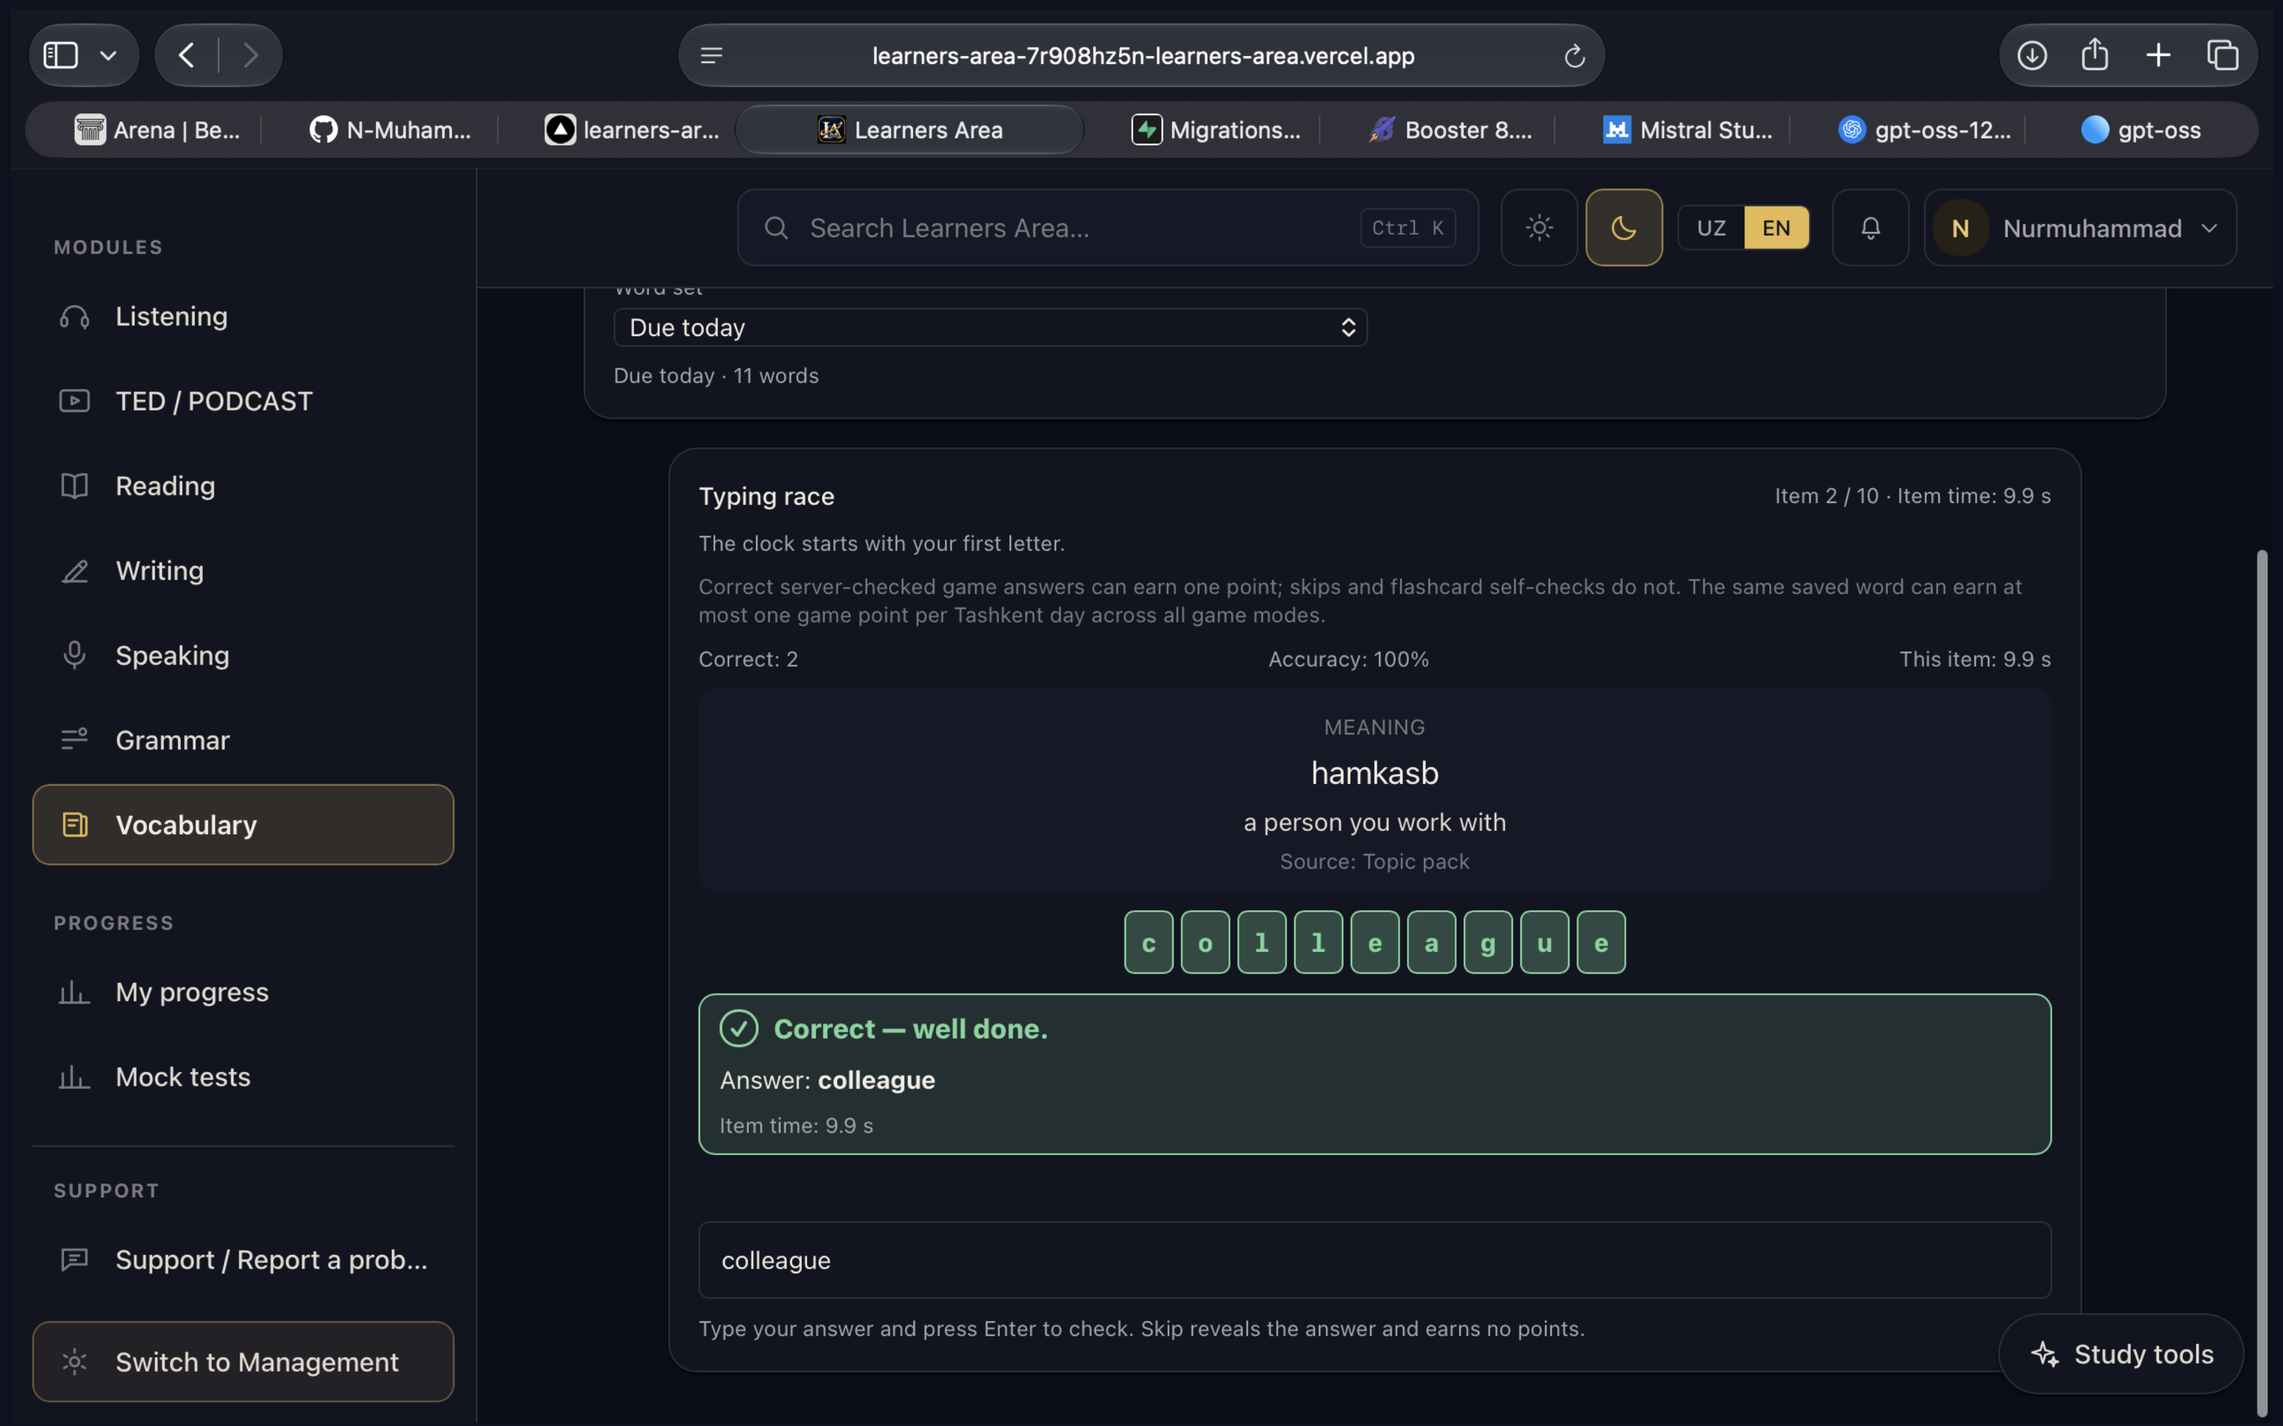

Screenshot 2026-09-30 at 23.48.07.png

HISTORICAL OWNER REPORT - Old 7r908hz5n Preview: 3D toggle and text utility launcher visible. Current dd23e0a already removed the card toggle; verify actual flip in browser, never restore this old state.

Screenshot 2026-09-30 at 23.54.31.png

HISTORICAL OWNER REPORT - Typing Race correct feedback, all letters lit in this still. A still image cannot prove simultaneous versus sequential lighting; test both verdicts and auto-next with timing evidence.

Screenshot 2026-10-01 at 06.29.01.png

HISTORICAL OWNER REPORT - Use it shows word-only selector, no folder choice. Visible leaderboard totals disagree with recent awards; verify consistency under same user/time/filter, not just copy this layout.

My words | Revision 11 | Games | Use it | Leaderboard

Use it

Write your own sentence with the word. RIWI reads the sentence, not the word alone, and only an accepted sentence earns the full award.

Choose a word

workload — the amount of work one person has to do

Write one natural sentence using the word...

the flexible hours is one of the most advantages of my company.

Send sentence

Uzbek meaning: ish yuki

Needs correction · Checked by: RIWI
