Examiner's comment

This is a Band 5.5 response. The essay addresses both sides of the debate and maintains a clear position, but ideas are under-developed. The biggest band-limiting weaknesses are lexical control and recurring grammatical errors. To reach Band 6.0, develop each idea with a concrete mechanism or example and remove recurring wording errors.

Task Response

6.0

The prompt is addressed and a clear position is maintained. Both views are covered, but ideas need deeper extension and more specific support to reach the next band.
